RARE COIN CYCLES - PAST, PRESENT AND FUTURE

By Larry Hanks

In trying to understand the field of rare coins, I've found that there are three primary components that are the driving factors in numismatics. They are: the artistic merit of any numismatic property, the historical aspect and finally, the many financial aspects relating to the property and the economy. This article will focus its attention on one interesting segment of the financial side of rare coins; this being the rare coin cycle with special emphasis on current position and movement within the current cycle for the new year.

As most people now realize, many things in the world move in cycles. Rare coins, and for that matter rare coin collecting, are not an exception to this principle. Over the years, many books have been written by experts in various fields pertaining to cycles. Generally speaking, on average, rare coin prices cycle every 7 to 8 years. Based upon my observations since 1964, there have been four identifiable bull/bear market cycles (we are now in the midst of the fifth). I have identified these cycles below:

| Bull Market Began | Bear Market Began | Reasons for Start of Bull Market | Reasons for Start of Bear Market |
|-------------------|-------------------|---|--|
| August, 1961 | Early 1965 | Massive influx of first time speculators | Collapse of BU Roll Market |
| April, 1972 | January, 1975 | Increasing inflation rate, Increasing Gold Prices | U.S. Recession; 12% Interest Rates |
| February, 1977 | April, 1980 | Strong Economy, double digit inflation rate, record high Precious Metals Prices | U.S. Recession; 21% Interest Rates |
| August, 1987 | August, 1990 | Wall Street Broker Funds, Strong U.S. Economy | Credit Crunch, Persian Gulf War, Rare Coin Prices Too High |
| Early 1997 | ??? | Inflow of money from equity profits, renaissance in coin collecting, major marketing in national media, strong U.S. economy | |

Even though some of the above cycles have common denominators, such as inflation in bull markets or recessions in regard to a bear market, each cycle had a life of its own in regard to its length, scope, and intensity. As an example, following the crash of the BU roll market in 1965, there was a bad taste in many peoples' mouths about "rare coins". Interestingly, the price of most rare coins in nice condition did not have any significant rise or decline during this market, as attention was focused on BU rolls. After the crash of the BU roll market, rare coins were more difficult to sell, however there was a net gain of collectors from the previous cycle in the 1950's, who continued to buy rare coins. Let's contrast with that cycle, the cycles of 1977, 1980 and 1987-1990. In each case, rare coin prices went to the stars, followed by a free-fall, where very few people had a parachute. Tremendous profits and losses occurred during these two cycles.

One of the intriguing dynamics that I have noticed about each rare coin cycle is the fact that when put in a graph form (page 2), the bull and bear phase closely mirror each other on either side of the eventual peak. Thus, if there is a sharp rise in prices prior to a peak, there is normally an echoing, or corresponding fall on the other side of that peak, that is equally as sharp. If it is a gradual rise, then the trend line tends to gradually fall. In both instances, the replacement will fail to support levels for the economic conditions that exist at that point in

time. Additionally, the trough that is eventually reached is always higher than the low from the previous cycle. The new high points have always exceeded the previous highs of most truly rare coins. However, I feel we may have an exception in some areas in this current cycle, due to grade considerations. In the graph provided for this article, an index of 24 different rare coins, covering a broad spectrum of numismatic issues is used to illustrate the above premise. It is also extremely important to note that rare coin prices are collectibles first and foremost.

Individuals who look upon it solely as an investment are especially vulnerable. As Harvey Stack of Stack's, New York once told me, "Rare coins are not necessarily a good investment, however, it is possible that a rare coin collection may indeed become a great investment."

In a strong economy, or during the presence of rising inflation, or a net inflow of liquidity, rare coin prices are going to increase. In recessions, during weak economic times or a net outflow of liquidity, rare coin prices are going to decline or remain weak. In both instances, at what pace and at what time is another matter, because rare coins have both been a leading and lagging indicator during good and bad economic times. The collector is going to steadily buy coins over a long period of time, participating through several cycles. The investor, on the other hand, tends to get caught up in the moment and reacts to just

about any spot information. If the investor or his dealer is out of synch with the cycle, it can result in bad market timing.

It is important for the dealer to educate new collectors and investors about the volatile financial movements of rare coins (particularly the months before and after a market peak), and, that great patience is needed because of cycle durations. Better yet, the dealer should get the investor to explore the world of numismatics as a collector. The reality is, that most individuals who first approach a dealer about "investing," and making money in rare coins, are probably collectors at heart, and are looking for a trusted dealer mentor to help them begin their journey. After all, the true long-time

collector knows the enjoyment and challenge, both artistically and historically, that can be experienced in numismatics. Instinctively, they are aware of the market cycles and use it to their advantage when buying new issues, or at such time when they sell their collections.

By virtue of the relatively long length of time between cycles, there is time and available numismatic material to make the necessary purchases and sales of most rare coins. However, the long length of the transition lines, both on the up-cycle and down-cycle, translates into a caution flag. If you're on the down leg portion of the market cycle, then prices will continue to erode. If you bought coins between 1989 and 1996, in the majority of cases, you were buying on the down leg of the last market cycle. Consequently, coin prices just drifted lower or remained flat. The closer to the 1996 (1993/94 for great rarities) you purchased coins, the better, as the erosion in prices essentially halted at that time. The good news is, the trend line has now changed, and an up-trend is in sight. Those individuals who bought coins near the bottom of the down leg should soon be rewarded. For those who have been hesitating to buy, I believe prices are going to become more expensive later this year. Therefore, if the coins you need are now available at fair market levels (and have eye appeal), they should be bought. Why is this happening now and why is the next market cycle going to positively affect rare coin prices? Here are five reasons:

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

GROWING LIQUIDITY. A strong economy has been producing a new inflow of liquidity (funds), resulting in less availability of fresh, high-grade rare coins. Most dealers that I have spoken with lately agree that a steady demand from collectors and investors is continuing, but availability of select items is becoming a problem. Their want lists are long and inventories are modest. In a nutshell, continued current demand will take more and more coins off the market, resulting in an imbalance in demand and supply.

DEALER STRENGTH. Within the past year or so, several new professional rare coin ventures, companies, or mergers have been created. Noteworthy, is the fact that many of these concerns have exceptionally large amounts of capital behind them. They are well organized and have strong numismatic management teams. Their primary plan for 1998 and beyond, is to introduce rare coins and collecting through the national and international media. These new, large companies are going to need rare coins to furnish their new clients. Being well managed, with numismatic experts, these companies are going to be looking for high-quality rare coins at all price levels. This will translate into adding breadth and depth to the current market environment. The bottom line is that additional liquidity will be added to the market place, as these firm's capital and their customers' capital is introduced in 1998.

THE FALL IN THE PRICE OF GOLD. Many people in the rare coin sector have been dismayed at the fall in the price of gold. I feel that the recent fall, below \$300, is not necessarily bad for the coin market. At whatever level the price of gold settles, historically, it has to be considered opportunistic, especially at these levels. Any lasting gold market price of \$250 or less, would shut down more than 50% of the World's gold mines. This event in itself would cause a gold rally. Given this information, I feel that we are near a market bottom and that a platform will soon be established for gold. Once a low price platform is established, this gives investors incentive to purchase gold. With rare coins enjoying a solid market now, any move upwards in the price of gold will result in a psychological boost. I feel that we will see this begin to occur in the first half of 1998.

POSITIVE FUNDAMENTALS. Simply, the U.S. economy is awash in money at this time. From low employment, a 15 year bull run in equity prices, and low interest rates, all of these create a positive atmosphere for rare coins. Additionally, there has entered into the marketplace a select group of new generation mega collectors. By

mega, I mean individuals who have a serious interest in rare coin collecting and have essentially (if they choose), unlimited financial resources to buy the coins they want or need. As an example, two well-heeled individuals alone, have pumped more than 100 million dollars into the rare coin market, while building world class collections in the past few years. None of the above factors have changed as we enter 1998.

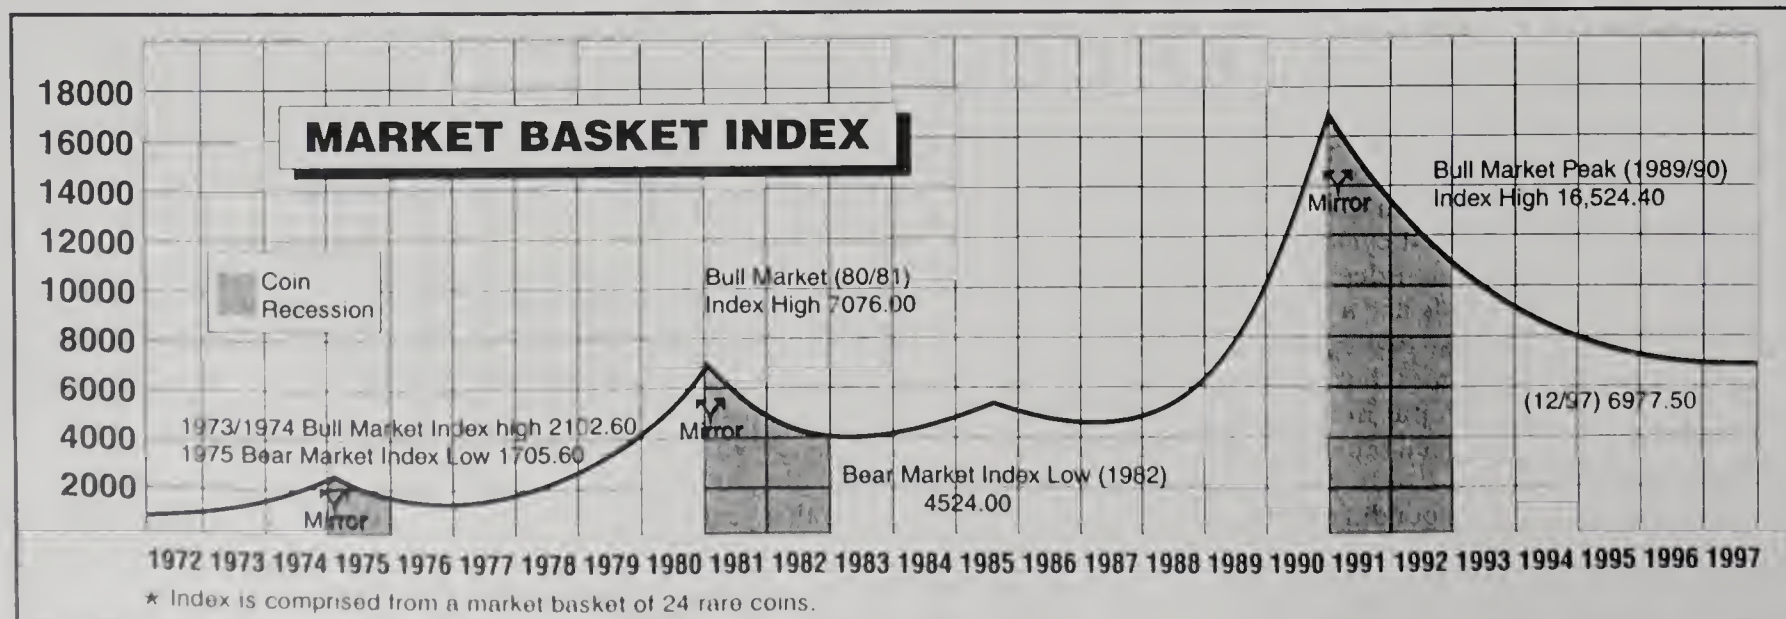

LOW RARE COIN PRICES/LOW DOWNSIDE EXPOSURE.

With the exception of the great rarities in high grade, most rare coins are quite low, relative to their past price levels in similar strong economic conditions. Combined with the above factors, a swing in the pendulum is taking place to a positive balance in the risk/reward pay off (far more upside potential than downside risk). Based upon current Blue (CCDN) and Grey (CDN) sheet bid levels, downside exposure for accurately graded coins that have eye appeal (either toned or brilliant), is limited at current levels in Type Coins, Commemoratives, key date rarities, patterns, and many Rare Gold coin types in both Proof and Mint State.

Granted, like the recent Asian financial turmoil (rare coin prices were not impacted), there will be some negative financial surprises in 1998, but again, with prices being low, other than an equity crash or recession, most rare coins should withstand the unseen financial bumps ahead.

In summary, with the fundamentals mentioned above in place, rare coin prices should increase in 1998. The pace, depth, and breadth of the move are yet to be determined; in my opinion, an acceleration in these areas will happen, which will translate into quickly moving, increasing prices in a number of numismatic areas. I feel that the first hint of the new upward cycle move will be the widening of spreads, between the bid and ask, with the bids moving closer to the ask price, allowing a potential buyer a greater possibility of success. For the dealer, collector and investor, it should be an exciting year on the next leg upward of the most recent coin cycle.

NUMISPOTO

The easiest and safest way to offer quality rare coins to your customers. Numisphotos are high quality images of rare coins available in a wide variety of formats. These color images give your customer the opportunity to view a coin you are offering, without the concerns associated with shipping the coin on approval. Each Numisphoto can be produced with your company's logo or any other information you request.

National Gold Exchange will happily send you Numisphotos of any of the rare coins in our multi-million dollar inventory.

We will also produce Numisphotos of any slabbed coins in your inventory for a nominal fee.

Please call for additional information.

Now is the Time!!

XII
We are currently entering the next phase of the **Rare Coin** market. As witnessed by the recent Eliasberg Sale and confirmed by multiple private treaty sales since, the market focus has not only shifted dramatically toward Rarity and Quality, but toward fame, pedigree and historical importance as well.

Presented here is the most amazing group of Classic American Rarities ever assembled in the history of Numismatics. Not only is each coin a National Treasure and desired in any state of preservation, but each has the distinction of being the **Finest Known** and the most valuable coin for its respective denomination.

IX
All of these legendary coins have two things in common – they have passed The Mint's strict criteria of properly-graded, eye-appealing. "Truly Rare" gems with superb track records, and each has been encapsulated by Numismatic Guaranty Corporation. Both companies are recognized leaders in the rare coin industry.

Here at The Mint, we not only **buy and sell** the most famous and valuable coins in the world, we also offer the best repurchase program in the business and have a full 30-day, no questions asked return policy, 90-day interest free in-house financing, and the experience to help you consolidate your holdings into a World Class Portfolio of proven, time-tested Classic Rarities.

If you have a modest collection or a great rarity for sale, or have an interest in buying some *Amazing Coins with Real Potential* or "Trading Up" to a Classic American Rarity, give me a call, and let's discuss strategy – winning strategy!

Coins have been a "love affair" of mine for over 40 years, and I look forward to helping you in any way I can.

Mail to Dealers It's Easy!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

1997 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

1997 REVIEW:

MARKET DOMINATED BY SELECTIVITY, INCREASING ACTIVITY AND THE STRONG DEMAND FOR BETTER DATES

As we look back at 1997, clearly the overall rare coin market is improving. We would define it as being steady to improving. Besides the raw statistics, the market in 1997 has been perceived to be better than it had been in 1996. These perceptions have been initiated by dealers after weighing specific market factors. Some of these factors include bourse, auction and general market activity; sales; the economy; and overall enthusiasm. Throughout 1997, many dealers have had a more positive attitude about the industry and their business. This has translated into increased sales and a year that has exceeded their initial expectations. There is no correct "tried and proven" formula for success; however, there are some important avenues that successful dealers follow which can greatly benefit your chances to improve your business's bottom line. Many of the dealers that we have talked to throughout the year said, "The market looks better and sales are increasing." First their aggressiveness helps give them an advantage. They do not lay back and wait for the market to come to them; instead, they are out there banging on doors and initiating sales. Second, these dealers are well capitalized. They are in a good financial position to buy and sell rare coins. If a collection walks through the door, they are equipped to take advantage of this situation without passing due to liquidity problems. They are also able to successfully participate at public auction, offering strong Bids on the coins they either have a home for, or that they believe to represent excellent value.

In this market, having capital is possessing power. Another important area that determines the success of a dealer and his perception of the market is his or her inventory. Those dealers that have a solid inventory of rare coins are better able to satisfy the current demands of collectors. As a by product, these dealers have a better outlook of the market and a better chance of completing transactions. The market continues to move towards the more scarce dates of each series. Dealers know that the key and semi-key dates of all series are what collectors are most happy to acquire. The population reports are being carefully checked to determine condition census and finest known examples. Naturally, everyone appreciates being able to obtain the finest quality that they can afford, but when you have the **finest known** of a specific date, it becomes a very "special" coin. So, many dealers have been actively pursuing coins that they believe to be most often requested by collectors and other dealers. It is also important to understand that tastes and demand can change and therefore, a dealer must be able to switch gears at anytime.

In 1997, demand was strongest for coins with very minor problems, but especially for totally problem-free coins. They want coins that possess attractive eye appeal. In many cases, they prefer coins that have brilliant luster. They want original coins that haven't been excessively cleaned, dipped or wiped. In the case of toned coins, they desire coins that have soft, original colors that have blended beautifully over time. They tend to stay away from coins that have darkened due to toning. However, some darkly toned coins may still be attractive and consequently, sought-after by dealers and collectors. Of course, "artificially toned" has become the evil phrase

throughout the 1990s, and 1997 was no exception. Dealers have shown an ability to learn the specific needs of customers. This recognition involves repeated follow through efforts by the dealer. However, these efforts have been proven to pay-off, in the form of loyalty, repeat business and recommendations by collectors leading to more customers. Another area that has been on the increase in 1997 is the dealers' advertising budget. Apparently, dealers had increased their advertising spending in 1997 and it is paying off with increased revenues. Advertising and publicity about rare coins and the coin market mean that there is a greater awareness with information available to the collecting public. This can only help all the dealers collectively as the collector base begins to expand. Of course, this also means that the availability of the key and semi-key dates will be found in shorter supply. Consequently, this increased demand coupled with a decreasing supply will put a significant amount of pressure on price. Increasing prices for key and semi-key dates will continue as this scenario runs its course. We have monitored this kind of activity in 1997.

We have seen a significant increase in activity by the number and quantity of dealer Bids monitored on the coin teletype systems. Also, when original material hits the auction block, especially big name collections, the prices realized are quite amazing. Clearly, there are rare coin markets independent unto themselves. Dealers understand this anomaly and gear their efforts towards being successful.

| | 1997 Market Activity | |
|------------------------|----------------------------|--------------|
| U.S. Gold | - | 0.96% |
| Proof Type | - | 1.90% |
| Unc. Type | - | 2.93% |
| Circ. Type | + | 3.17% |
| Silver Commem | - | 4.45% |
| Gold Commem | - | 7.74% |
| Morgan Dollar | + | 5.00% |
| Peace Dollar | + | 1.92% |
| Mercury Dimes | + | 2.38% |
| Walking Liberty Halves | - | 3.90% |
| Proof Sets | + | 5.38% |
| Mint Sets | + | 6.06% |
| Average | + | 3.82% |

The overall averages of the chart above suggest that the coin market is improving. Apart from the Commemoratives, most indices improved with the declines very much mitigated. In many cases, strong support for the key and semi-key dates of the popular series helped buoy the averages to the plus side. The demand for original, scarce dates was omnipresent in the Morgan Dollar series in 1997. Dealers say that there are many collectors working on sets of Dollars and the need is great for better dates in the Uncirculated grades. One glimpse at the table will indicate the strength for high-grade key date Morgan Dollars. The most disappointing factor that negatively affected the results, was the poor performance turned in by the most common dates of each series. The collector base expansion, increased advertising and the strong economy must receive full credit for the significant increase in Proof Sets and Mint Sets.

| Mint State Type Coins | CDN Grade | 1/3/97 BID | 1/2/98 BID | Change - 2.93% |

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.
INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.
Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369
Address all subscription remittances to:

The Mint State Type Coin results make it easy to see the rare dates of a series can affect its outcome. Sometimes, there are no common dates within a specific Type. When someone tries to obtain a 1796-97 Draped Bust Dime, Small Eagle for a Type set, there is no such thing as a common example. However, since many of the dates among various series are common, it tends to skew the average towards the negative. Still, as the collector base continues to expand, many common dates will attract more demand and begin to increase in price. Unfortunately for 1997, weakness among common dates pulled down the averages for series such as Barber Quarters, Barber Half Dollars, Three-Cent Silver, Type II and Seated Liberty Half Dimes, Stars.

| Proof Type Coins | CDN Grade | 1/3/97 BID | 1/2/98 BID | Change - 1.90% |
|---------------------------------------|-----------|------------|------------|----------------|
| Flying Eagle Cent (1856-1858) | PR64 | 4,500.00 | 7,250.00 | + 61.11% |
| Indian Head Cent - Red | PR64 | 205.00 | 240.00 | + 17.07% |
| Indian Head Cent - Red | PR65 | 500.00 | 565.00 | + 13.00% |
| Twenty Cent Piece (1875-78) | PR63 | 1,300.00 | 1,400.00 | + 7.69% |
| Two Cent Piece - R & B | PR65 | 650.00 | 700.00 | + 7.69% |
| Barber Half (1892-1915) | PR64 | 950.00 | 1,000.00 | + 5.26% |
| Lib Seated Half Dime, Leg (1860-73) | PR65 | 1,275.00 | 875.00 | - 31.37% |
| Lib Seated Quarter, W/Motto (1866-91) | PR65 | 1,250.00 | 1,000.00 | - 20.00% |
| Three Cent Silver, Type III (1859-73) | PR65 | 1,125.00 | 925.00 | - 17.78% |
| Liberty Seated Dime, Legend (1860-91) | PR65 | 1,025.00 | 850.00 | - 17.07% |
| Shield Nickel, (1867-83) | PR65 | 470.00 | 400.00 | - 14.89% |
| Barber Dime (1892-1916) | PR65 | 950.00 | 825.00 | - 13.16% |

The Proof Type Coin averages kind of mirror the Uncirculated Type market. Common date coins in the higher Proof grades experienced weakness throughout 1997. However, the exceptions are the scarce or rare Type Coins that are rare even though they are the common dates of the series. Try to find a common date Proof 64 Flying Eagle Cent. The same can be said for a Proof 65 Red Indian Head Cent. These Proof Type Coins are few and far between. However, a different fate took place among Shield Nickels and Barber Dimes, where many common date Proofs declined in price in Proof 65 condition.

| Peace Dollars | CDN Grade | 1/3/97 BID | 1/2/98 BID | Change + 1.92% |

| 1921 D | MS65 | 220.00 | 170.00 | - 22.73% |

The Morgan and Peace Dollar tables make it crystal clear how price is influenced by selective demand for rarity and less for those common dates. During 1997, we often described the strength of demand for key and semi-key dates within the Dollar series. It's obvious from this table that the strongest increases have been realized by key dates in high grade while the weakest areas are among those common dates in most Uncirculated grades. It also shows how strong the demand is for select key dates. The lack of availability of certain key dates in gem condition is the main reason why prices can be so volatile. How often do you see an 1886-O in MS-65 condition offered for sale?

| U.S. Gold | CDN Grade | 1/3/97 BID | 1/2/98 BID | Change - 0.96% |
|-----------------|-----------|------------|------------|----------------|
| \$10 Indian | MS64 | 1,200.00 | 1,575.00 | + 31.25% |
| \$10 Lib/W/M. | MS64 | 1,325.00 | 1,650.00 | + 24.53% |
| \$5 Lib/W/M. | MS64 | 1,325.00 | 1,625.00 | + 22.64% |
| \$20 Lib (II) | MS63 | 6,050.00 | 6,750.00 | + 11.57% |
| \$1.00 (II) | MS64 | 17,400.00 | 18,500.00 | + 6.32% |
| \$5 Indian | MS65 | 11,300.00 | 12,000.00 | + 6.19% |
| \$10 Lib/W/M | XF | 225.00 | 192.00 | - 14.67% |
| \$1.00 (III) | MS60 | 250.00 | 215.00 | - 14.00% |
| \$20 St.Gaudens | MS65 | 1,030.00 | 910.00 | - 11.65% |
| \$20 St.Gaudens | XF | 438.00 | 391.00 | - 10.73% |
| \$20 Lib (III) | MS60 | 465.00 | 420.00 | - 9.68% |
| \$20 Lib (III) | AU | 434.00 | 394.00 | - 9.22% |

The U.S. Gold portion of the market continues to claim the "big bucks." Collectors who are actively working on date sets better have deep pockets, because the rare dates are increasing in value, as these dates are taken off the market and impounded in collections. More and more collectors are looking at the population reports and hoping to obtain an attractive example. The higher grade examples of most any denomination, except for \$20 Saint-Gaudens Gold coins, becomes very challenging for dealers to acquire. That's why prices are increasing in this area.

Looking for something?

NGE probably has it.

NUMISPOTO

The easiest and safest way to offer quality rare coins to your customers. Numisphotos are high quality images of rare coins available in a wide variety of formats. These color images give your customer the opportunity to view a coin you are offering, without the concerns associated with shipping the coin on approval. Each Numisphoto can be produced with your company's logo or any other information you request.

National Gold Exchange will happily send you Numisphotos of any of the rare coins in our multi-million dollar inventory.

We will also produce Numisphotos of any slabbed coins in your inventory for a nominal fee.

Please call for additional information.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

HOW TO GET THE CASH NOW!

The rare coin market performed very well in the past two years. Perhaps you've read about the many new price records set during the past few years. Perhaps you've attended recent rare coin auctions and witnessed for yourself the healthy prices that top quality U.S. coins now fetch. Perhaps you've attended a major coin show and noticed the hot and heavy action. The fact is that rare coins are selling very, very well. **THE BEST TIME TO SELL COINS IS WHEN YOU HAVE A WILLING BUYER.** And if you have rare coins that you've been thinking of selling, you now have a lot of willing buyers for those coins. Now is the time for you to get the cash!

The real question is where do you get the most cash. There is one firm that consistently pays the most for top quality pre-1950 U.S. rare coins. In the rare coin market, **Spectrum Numismatics** truly is the *King of Cash*. Here are the facts:

1. Last year, one firm in this country spent more money buying premier rare coins than any other rare coin firm. That firm was **Spectrum Numismatics**.
2. Last year, an 1804 Silver dollar sold at public auction for \$1,815,000, a new world's record for a rare coin. The buyer for the coin – **Spectrum Numismatics**.
3. Last year, **Spectrum Numismatics** paid \$3,065.845 in commissions and finder's fees to other dealers and individuals just to help them buy the rare coins they needed!

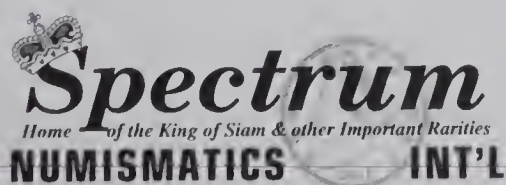

Everybody says they pay top dollar, but the facts of the numismatic marketplace show that **Spectrum Numismatics** is the top buyer. Coin sellers, both dealers and collectors, are basically well informed. And these well informed sellers gravitate towards the highest buy prices. Coin sellers go where they can get the most cash for their coins. And most coin sellers realize they get the most cash for their coins from the rare coin market's *King of Cash*, **Spectrum Numismatics**.

Why does **Spectrum Numismatics** pay more than any other dealer for top quality pre-1950 U.S. rare coins? What's the catch? There's actually no catch at all, it's just a wise business decision. **Spectrum** is one of the largest coin dealerships in the world and has lots of coin hungry clients. **Spectrum** literally must either buy your coins or lose its clients. That's why **Spectrum** will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

IT'S EASY TO DO BUSINESS WITH THE KING OF CASH

If you have rare coins you want to sell and you want to sell them for absolutely top dollar, you'll be delighted to know how easy it is to do business with **Spectrum Numismatics**. You'll also be pleasantly surprised at the ultra quick turn around for your coin shipments and the swift **Spectrum** payment. And you can choose payment in either the form of either a **Spectrum** "Rocket" check or an immediate bank wire.

The time to get the cash is now. Call **Spectrum Numismatics** today. Call collect. Tell them you want to talk to the *King of Cash*.

SPOT GOLD LEVEL HAS NO PLACE IN RARE GOLD COIN PRICING UNDervalUED \$20 LIBERTY'S GETTING RESPECT

by TIM BAUER

The most recent economic news indicates the world markets have sustained a dramatic drop in the spot price of copper. This news coupled with weakness in the precious metals, as spot Silver languishes near the \$6.30 per ounce level while Gold hovers around \$295 per troy ounce, made me ponder whether collectors or dealers of rare Early American Copper Half Cents and Large Cents or Indian Cents are being stampeded into "blowing out" their inventories and/or collections based on this bullion activity. Does anyone think a dealer pricing a 1916 Standing Liberty Quarter or an 1893-S Morgan Dollar, *in any grade*, is going to base his asking price on spot Silver levels? However, dealers of Gold numismatic rarities are expected to discount their inventories on the volatile rising and ebbing tides of the spot Gold levels. Why? I am not able to answer that question, but maybe I can help to lay the question to rest and keep it from ever coming up in price negotiations between buyer and seller. To the frustration of dealers specializing in Gold coins, a rare coin is penalized for being struck in a precious metal worth greater than \$290 per ounce. In other areas of numismatics, coins are given a pass if struck in copper, copper-nickel or Silver.

Traditional reasons for holding Gold still abound, for example, a private monetary reserve as a hedge against inflation, etc. The economies in Asia have collapsed in a major, cataclysmic financial disaster. The stock markets and currencies of the Pacific Rim nations have plummeted abysmally, beginning in Thailand and spreading to Hong Kong, then to Japan, South Korea, and eventually to Singapore, Indonesia and the Philippines. In South Korea, the government requested that their citizens turn in jewelry, coins, and anything Gold. This was done in order to strengthen that nation's weakened currency enough to help pay South Korea's burgeoning international debt. Furthermore, the International Monetary Fund has had to step in with huge loans to South Korea to keep that country from collapsing totally and defaulting on their obligations in international commerce. If you feel the United States, under the Clinton administration, is immune to similar crises in our stock market and the stability of our currency, that is no longer backed by Gold but only by faith in Uncle Sam, and, if you believe the government is being forthright about the low rate of inflation, then you need read no further. Ergo, when government inflation figures are posted, taxes, fuel costs (both heating and transportation), or food costs are no longer figured into the equation, as they have been in the past. Significantly,

the disbursement rate of Social Security to fixed income elderly Americans is tied directly to the government reported rate of inflation. Therefore, this gives the Federal Government a reason to report a lower than actual inflation rate. If you believe America is not an island immune from the travails of international economics, you may seek wealth protection by adding Gold to your holdings. Numismatic Gold coins have the value-holding, staying power to be the first choice against uncertain times that may lay ahead.

Pandas, American Eagles, Canadian Maple Leafs, Kruggerands and other Gold bullion rounds have abounded since 1986, are available in great quantities, and are being mass produced by governments of their national origin. These are not "rare coins", even though they often are seen concurrently on display with rare coins at shows and in coin shops around the world. The value, and likewise the prices, of these bullion coins *are* directly related to the prevailing spot price of the metal component of these rounds. A bullion coin *IS* a round, be it Gold, Platinum, Palladium, or Silver. Moreover, bullion coins are not minted for the purpose of being used as a monetary medium for commerce. Bullion coins usually come attractively housed in Mint-issued presentation cases.

The significant manner that bullion coins are housed, marketed, and sold is at the root of the problem. Initially, there is a public willingness to pay more for "pretty" baubles, neatly placed in velour and satin cases with a Certificate of Authenticity and "Special Limited Edition" serial number. Often, added information about the bullion coin is included, i.e., only fifty trillion struck. The masses also have the "reassurance" of buying directly from the Mint, calling a toll free number readily giving their credit card number to a total stranger on the phone. It never occurs to those who order them that a century from now very few of these bullion coins will have sustained any wear or attrition. I'm talking about "good honest wear" from years of circulation, clanking around from pocket to pocket, and from one person's hand to another. Consequently, one hundred years from now virtually the entire mintage of these bullion coins will be as available and as pristine as the day they were struck. There will be high quality but little rarity. Likewise, a hundred years from now, these "treasures" will be tied to the prevailing spot price of Gold and/or Silver, on an up-to-the-minute basis. Sound familiar?

Where the fog continues to roll in, further clouding the issue of the distinction between a bullion related Gold round and a numismatic Gold coin, is no doubt, attributable to a very key word - *demand*.

Those fickle speculators and investors who hover on the fringes of the coin market are seldom seen at coin shows when spot prices are low and real bargains can be found. The public as a rule does not want to buy something that is perceived as

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

dropping in value, and that is understandable. Where the public fumbles, however, is in a fundamental failure to define parameters and identify market highs and lows. Many illustrations of this phenomenon have occurred in and out of the coin market. In May 1989, the rare coin market increased across-the-board approximately 28% during a two-week span. Coins were the hot ticket in every economic and investment magazine, newspaper, and periodical to hit the news-stands back in June, 1989. The public jumped on board at the height of the market. The perception was supposed to become the reality. If the price of coins increased this far, this fast, then they must keep on rising. But they didn't. By the time the public got hip to what was happening, the smart money had already bailed on the overvalued common issues, taking their profits. A similar situation appears to be occurring in today's Stock Market — a market that is increasing, an ostensibly will continue to increase for a long time. We have already seen value resistance among those who consistently track values and trade stocks for a living.

To wit, the present overall rare coin market, spanning from Early American Copper coins to Gold Commemoratives is punctuated with both good and bad news. For purposes of brevity, I will limit my analysis to the realm of U.S. Gold coins — *rare* U.S. Gold coins. We have seen, with the exception of two brief hiccups in May 1989 and in 1991, an overall decline in both the spot price of Gold and the general rare coin market, including numismatic Gold issues. This seemingly interminable "circling of the drain" of the coin market has conditioned dealers, collectors, and the numismatic press to think in terms of an ever-declining market. Consequently, dealers reduce prices to "blowout" coins before the next week's *BLUESHEET* shows a minus sign for a coin in a dealer's inventory. Collectors stroll the bourse floors figuring the dealers will even cave in to an insulting offer, taking for granted there will always be a surplus of quality coins — all dates; all grades. It has always been my policy to stock and to recommend, to those who ask, coins that have demonstrably held their value in a declining market as steadfastly as boulders in an ebbing tide. The nomenclature for these always-popular and sought-after issues is *bread and butter coins*.

For the past year and a half, there has been a tremendous increase in the popularity for better date, *accurately* graded and certified by PCGS or NGC, U.S. Gold coins. The public wants certified coins. However, the caveat that even these grading services and all dealers should heed is the term *accurately graded*. The renaissance in the market for \$20 Gold Double Eagles has been astounding — particularly the \$20

Liberty Coronet design. Consistently, for the past 12 to 15 months, some better-date \$20 Liberty Coronets in grades MS64 and MS65 have been fetching at auction two to three times *CDN QUARTERLY III* bids and far exceeding *TRENDS*. This occurs if a coin or two even appears at all! I am not necessarily referencing the phenomenal rarities; rather, any issue other than even the most common. Canvassing the bourse floor at the many major shows I attend around the country in search of material for inventory and want lists has shown me there just are not enough better-date Gold coins available on the market to satisfy the current demand. This is because most have found their way, as they should, into the financially very strong hands of erudite collectors. The numismatic press, conditioned as we all have been to cover a declining market, is hard-pressed to raise published **BID/ASK** levels fast enough to accurately reflect what is happening. So, what has happened?

Simple. The \$20 Liberty Coronets have been historically collected by "Type" and now are being collected increasingly by date, Mint, and highest grades available. The NGC and PCGS published population reports graphically illustrate the scarcity of the coins. We dealers, in the trenches day in and day out, can attest there is considerable demand for these coins. Frustrating at times, but true! The good news is, with the absence of available MS64 and MS65 material, the price levels for MS62 and MS63 issues are being carried upward to fill the void. It should be mentioned that within the \$20 Liberty series a number of dates and/or Mints extant in any Uncirculated condition do not exist in Mint State grades exceeding MS61 or MS62. This includes the Type III's, struck from 1877 through 1907.

For coins of all series and Types to trade smoothly and find new homes in the realm of numismatic commerce, there must be accord between buyers and sellers. Unfortunately the coin-buying public, not able to be on the cutting edge of supply and demand realities, as the dealers are, cruise the coin shows trying to buy according to the *CDN QUARTERLIES* tucked under their arm. All too often they go home empty handed. In reference to rare U.S. Gold coins, the sooner the barrier of the prevailing COMEX spot Gold price is removed as a determinant for the level at which rare Gold coins trade, even *IF* a transaction occurs, the better off everyone will be. A level of comfort for the collector will be restored because it is a rare coin he or she wants and not a Gold ingot.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

The PCI Capsule...

✓ \$7⁵⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

ANTIQUES ROMAN & GREEK BYZANTINE

SPECIALIZING IN U.S. GOLD

\$1 through \$20 1795 - 1932

Common to Rare, PCGS and NGC.

We are one of the largest importers of U.S. gold coins from Europe since 1961. We offer competitive prices on all U.S. gold, especially \$10's and \$20's. And we are a major producer of slabbed coins through PCGS and NGC.

Auction consignments wanted for our annual Hong Kong Auction.

We have been holding auctions in the Orient since 1982,

and in the U.S. since 1967. Call or FAX for details.

for over a quarter of a century, collectors needing confidential direction and reliable advice have successfully turned to

Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the formation of your collection; with more than 30 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with confidential advice, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your personal representative for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the orderly disposition of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can appraise your collection or individual pieces. You know your needs best; contact me for expert assistance.

BARBERS ARE HOT AGAIN

Collectors Challenged by the Number of Scarce Dates

By David Lawrence

Over the years I have written several articles for the *CDN Monthly Supplement* about Barber coinage, my favorite series. First, I would like to offer some background about this highly collectible series.

The obverse design associated with the Dime, Quarter and Half Dollar is virtually the same for each denomination. For the most part, Barber coinage was designed by the chief engraver of the Mint, Charles E. Barber. However, the obverse portrait was very similar to the Morgan Dollar design of George T. Morgan in 1878. Barber's initial "B" appears on the obverse portrait of Miss Liberty located on the truncation of her neck. The Dime has "UNITED STATES OF AMERICA" circling the rim with the date located at the 6:00 position. Barber Dimes were struck by the Philadelphia, New Orleans and San Francisco Mint from 1892 through 1916. The Dime has a composition of .900 Silver and .100 Copper. That equates to a net weight of .07234 ounces of pure Silver. Its diameter is 17.9 mm and it has a Reeded Edge. This series was struck in Proof along with the regular issue Business Strikes. The reverse design is different from the Quarter and the Half Dollar. Actually, it is nearly the same reverse that first appeared in 1860 on the Liberty Seated Dimes. Known as the "Cereal Wreath," a reduction of James Barton Longacre's 1859 pattern Half Dollar, it sports a wreath containing corn, wheat, maple and oak leaves. The Mint mark can be found on the reverse at the bottom in the 6:00 position.

Like the Dime, Charles E. Barber designed the Quarter and the Half Dollar. His initial B appears as it does on the Dime for both denominations. "In God We Trust" appears around the rim at the top of the Quarter and the Half Dollar. There are 13 Stars that circle the obverse portrait. The reverse has a Heraldic Eagle holding an olive branch representing peace in one claw and some warlike arrows in the other. The reverse is an adaptation of designer and

engraver Robert Scot's work taken from the "Great Seal of the United States."

Back in 1990 Barbers were hot! I provided wholesale values for each date of the Dimes, Quarters and Halves in MS64 grade. I subsequently analyzed each date of the Barber Quarters and Half Dollars in May 1990. Now, with the coin market strong, it's time to look at these great coins again.

The first thing that stands out when you look at the Barbers is the number of truly scarce coins, many of which seem grossly undervalued in the marketplace. The second is the number of "fairly common" Philadelphia Mints that are surprisingly tough to find. But, they are priced just a little over the few dates that are available. And third is that if you remove a very few dates in each series all the rest are not so abundant either.

| TRULY SCARCE DATES | | | | |
|--------------------|-----------------------|-------------|-------------|---|
| DATE | TOTAL # MINT STATE | MS64 BID | MS65 BID | COMMENTS |
| BARBER DIMES | | | | |
| 1894-O | 35 | 3100 | 6700 | Rare in High Grade. |
| 1895-O | 33 | 6300 | 9500 | Often resubmitted and Always brings a premium. |
| 1896-O | 29 | 3250 | 5400 | Undervalued. |
| 1897-S | 42 | 1800 | 2850 | A sleeper. |
| 1898-O | 45 | 2000 | 2700 | Nice coins bring much more. |
| 1898-S | 37 | 1900 | 3150 | Comes nice but undervalued. |
| 1899-O | 42 | 2500 | 4000 | ... |
| 1901-S | 45 | 1900 | 3500 | A favorite date. |
| 1902-S | 43 | 1500 | 2400 | Way too cheap. |
| BARBER QUARTERS | | | | |
| 1896-O | 39 | 2950 | 6750 | Underrated. |
| 1896-S | 31 | 7600 | 13000 | Rare in MS-64 and above. Many resubmissions. |
| 1897-O | 43 | 1550 | 3000 | Undervalued. |
| 1898-S | 33 | 2750 | 4350 | Much scarcer than thought. |
| 1899-S | 43 | 1250 | 2800 | Comes nice. Undervalued in MS-64 and below. |
| 1901-O | 40 | 2700 | 4500 | Scarce in MS-65 and above. Often Resubmitted. |
| 1901-S | 31 | 19500 | 32000 | Rare. Many resubmissions. Nice coins bring strong premiums. Always in demand. |
| BARBER HALVES | | | | |
| 1892-O Micro O | 2 | N/A | N/A | Wow! Talk about rare. |
| 1893-S | 42 | 2800 | 12000 | Good buy in MS-64 and below. |
| 1896-O | 23 | 5100 | 10000 | Rare. Worth more. |
| 1897-O | 45 | 2800 | 3700 | Some gems were saved. |
| 1898-O | 39 | 3750 | 6800 | Everyone's favorite. |
| 1898-S | 45 | 3500 | 6400 | Shipped to Philippines; Dimes, Quarters also scarce. |
| 1900-O | 39 | 3650 | 11750 | Possibly overrated in MS-65. |
| 1900-S | 43 | 2150 | 8000 | Often overlooked. |
| 1901-O | 40 | 4100 | 11400 | Many resubmissions. |
| 1901-S | 25 | 4900 | 10500 | As scarce as the Quarter in Mint State but much cheaper. |
| 1902-S | 38 | 2650 | 3800 | Gems exist, but lower grades are rare. |
| 1904-S | 21 | 5750 | 14000 | The true King of regular issue Barbers. Worth much more. Try to buy one at auction! |
| 1907-S | 41 | 4300 | 9000 | Not a secret anymore. |

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.
INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.
Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369
Address all subscription remittances to:

The table shows some of my favorites in each category. Note that the population report and census data are based on the combined total from the March 1998 Professional Coin Grading Service Population Report and the January 1998 Numismatic Guaranty Corporation of America Census Report:

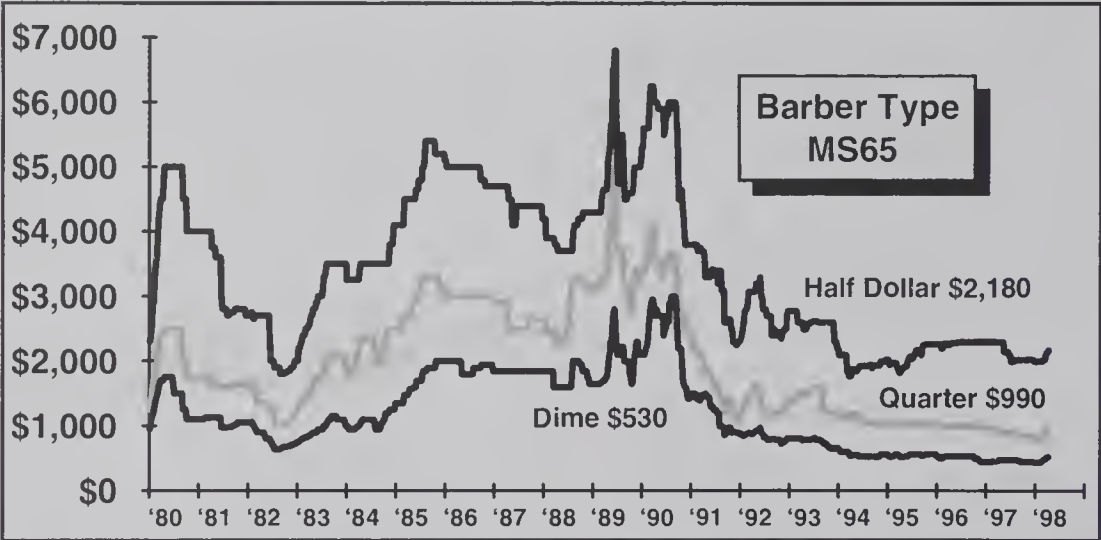

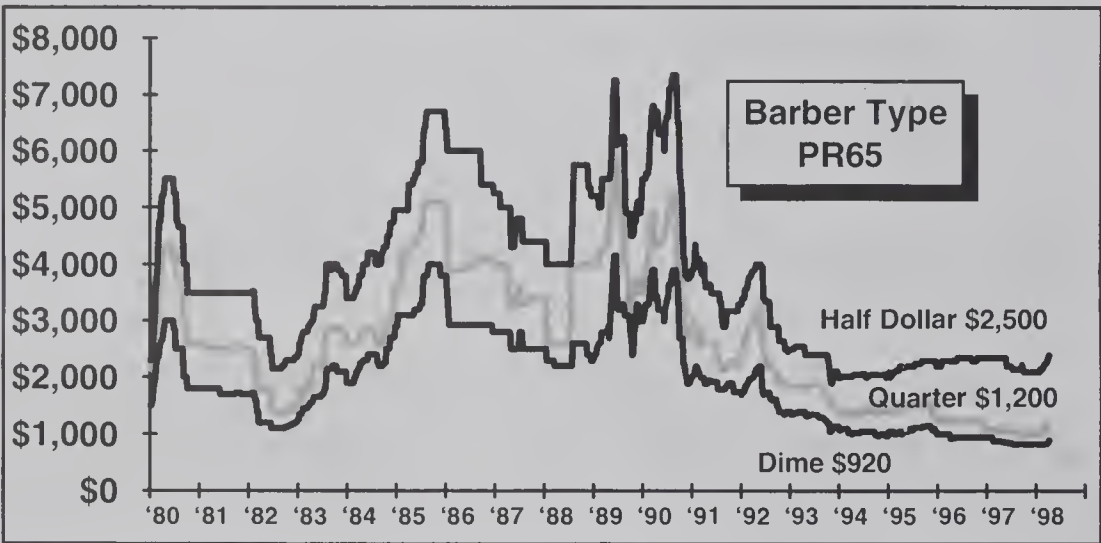

Some notes about the table on page 1; two coins that were left out are the 1893/2 and 1894-S Dimes. The former is a hard-to-see variety and the later generally considered a proof only issue. Also, many Barber collectors will be quick to note that many of their favorite dates may not be included in this study. The criterion used was a total Mint State population of 45 or fewer. Some dates, notably the 1913-S Quarter (and 1913-S Dime) are in great demand because of their relatively low mintages. Though they may have fairly high, original populations, strong demand is why they always bring strong premiums.

Compare the Barber coin Mint State populations with three, popular key date coins. The 1877 is a key date of the Indian Head Cent series from 1859-1909. The 1916 is a key date of the Standing Liberty Quarter series from 1916-1930. Finally, the 1921-S Walking Liberty Half Dollar is a key date of that series that spans from 1916-1947. This should help you determine the comparative value of selected Barber rarities.

| KEY DATES | Total # Mint State | MS64 Bids | MS65 Bids |
|-------------------------------|-----------------------|--------------|--------------|
| 1877 Indian Head Cent | 279 | 3,450 | 5,300 |
| 1916 Standing Liberty Quarter | 386 | 6,800 | 9,750 |
| 1921-S Walking Liberty Half | 117 | 17,000 | 38,500 |

Philadelphia Mint Barbers (no Mint mark) that are never around when you want them, are those found in the middle of the series; 1900 - 1905. The early and later years were saved but the middle of the series was usually overlooked. This is true of all three denominations. It is not unusual for a collector to neglect these dates. Collectors may become surprised and somewhat frustrated as their collection nears completion. That is because there will probably be a few Philadelphia Mint holes to still fill.

Last, many of the Barbers that sell as Type coins are far tougher to find in the most common dates in their respective series. The prime ex-

ample of this is the 1916-D Quarter. This issue is overwhelmingly the most common date in the Quarter series. Yet, it sells in all Mint State grades at the same price as other far tougher issues such as the 1906-P, 1907-P, 1912-P and even 1902-P! Give me these later dates any time.

All three Barber series are wonderfully complex and full of nuances. The tables, charts, and discussion can only begin to touch the surface. Collectors who enter this realm find much more enjoyment than they bargained for, not to mention great values. Compare the prices and populations listed in the tables to any of the more modern series and you too are likely to become a Barber enthusiast.

David Lawrence is a partner, with his son John, in David Lawrence Rare Coins of Virginia Beach, Va. He has written three books on this subject.

| CDN Bids - Percentage Increases Since January 2, 1998 | | | | | | |
|---|---------|----------|----------|---------|---------|----------|
| Barber Type | MS63 | MS64 | MS65 | PR63 | PR64 | PR65 |
| Dime | N/C | + 9.09% | + 20.45% | N/C | + 1.22% | + 9.09% |
| Quarter | + 5.71% | + 14.52% | + 19.63% | + 1.22% | + 4.55% | + 18.00% |
| Half Dollar | N/C | + 6.85% | + 8.75% | + 2.86% | + 3.00% | + 14.29% |

Introducing: NUMISPOTO

The easiest and safest way to offer quality rare coins to your customers. Numisphotos are high quality images of rare coins available in a wide variety of formats. These color images give your customer the opportunity to view a coin you are offering, without the concerns associated with shipping the coin on approval. Each Numisphoto can be produced with your company's logo or any other information you request.

National Gold Exchange will happily send you Numisphotos of any of the rare coins in our multi-million dollar inventory.

We will also produce Numisphotos of any slabbed coins in your inventory for a nominal fee.

Please call for additional information.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT: Mercury & Walker singles are in the CDN.

Taking The Mystery Out Of DMPL's

By Laura Sperber

If Deep Mirror Prooflikes were their own denomination and not a subset of the Morgan Dollar kingdom, they would stand out as a collectable series with great beauty, rarity, and potential.

Today's market is just starting to look closer at, and embrace the wonderful world of DMPL Morgan Dollars. Long over shadowed by regular Mint State Morgans, the DMPL market is **poised** for some **explosive growth**. DMPL's are much rarer than regular Uncirculated Morgan Dollars. One distinction is that quantities can not be located in Choice or Gem condition. In addition, regular Uncirculated Morgan Dollars have enjoyed tremendous demand with ongoing price increases. DMPL prices can only move up in multiples because they trade less frequently than their Mint State counterparts.

Let's consider an MS-64DMPL 1889-S Morgan Dollar. This coin can be found with a nice cameo effect. The combined PCGS Population Report and NGC Census Report totals 20 coins. An example in this grade will cost you approximately \$1,850-\$2,500. Just compare that amount to an MS-64 1897-O Dollar with a combined population of 24 that cost between \$10,000-\$12,000. Even though the 1897-O is rarer in regular Mint State condition, the 1889-S DMPL, is considered more desirable for its state of preservation. This is because DMPL's, as Proof Morgan Dollars are appreciated for their excellent strike and reflectivity. The rarity of DMPL's is magnified when you consider that less than three percent of any dates surviving population will exist in DMPL.

Some people may argue that DMPL's do not have a huge collector base. This is so untrue! Because Morgan Dollar enthusiasts embrace such a large field, it would be difficult to determine the precise percentage of them that collect DMPL's. Because better date DMPL's are so rare, it is very difficult to figure their market value. When the **Jack Lee Collection** of PL and DMPL Morgan Dollars traded hands, we were immediately inundated by people wanting to buy the coins. Within the first week, more than 60% of this huge and amazing collection had been sold, just by word of mouth! Additionally, we probably heard from another 50 or

more people wanting information about the collection or some general information about DMPL's.

Here are some general facts about DMPL's that we find to be most misunderstood.

MINTING DMPL's

Over the years DMPL's have been characterized as a "Poor mans Proof." While they are the first coins off the dies, they do not have the craftsmanship and double striking process of regular Proofs. The dies that produced DMPL's were designed for mass production, not individual quality reproduction.

Depending upon the physical construction or **basining** the die and/or how well the planchet is polished deter-

mines the depth of the mirrors. Basining is the act of heavily polishing a die to create a slight dip from the sides of the coin to the center. It is the striking pressure and metal flow against heavily polished dies that can cause a coin to be "black and white" in appearance. Black depicts the depth of the mirrors and white depicts the frostiness of the devices. This is typically found on coins that were among the first strikes from fresh dies (that were properly basined).

Sometimes, striking quantities of coins was more important than removing the dies for repolishing or adjustments. Also, in many cases after 1900, the dies were rarely polished properly. To correct this, old Proof dies were substituted for Philadelphia Mint dates. This, however, caused the coins to have shallow mirrors and have a dull grey appearance.

The longer a die was in production, the less chance of realizing a mirror effect. Consequently, the "black and white" appearance of the coin is reduced proportionately. Typically, a single pair of dies produced approximately 30,000 coins for a date such as the 1893-O, compared to 127,000 coins for the 1881-S. Thus, with the lower mintage and fewer dies used (only 10 pairs) for the 1893-O, it is easy to see why this date is exceedingly rare in full DMPL condition. While the 1881-S is probably the most common of all DMPL's (produced with over 100 die pairs), there are as many as 100,000 coins existing in Mint State grades with Prooflike surfaces. Often, these are a near miss DMPL. In addition, 1881-S Dollars were produced with extended dies (constant polishing and adjusting) also creating numerous Prooflikes and brilliant, grey DMPL's.

In all, the more care given to the dies, planchet, and earlier strikings, the more dramatic and frequent the "black and white" appearance became, except for most dates after 1900.

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

DEFINITION OF DMPL STATES

DEEP MIRROR PROOFLIKE: The finest state of preservation that a Mint State Morgan Dollar can exhibit! The DMPL state is created when highly polished, fresh dies and/or planchets are stamped. Usually only a few of the earliest strikes will exhibit full DMPL features.

DEEP MIRROR PROOFLIKE CATEGORIES

CAMEO:

The fields are usually deeply mirrored to a point where they look "black" in appearance. Miss Liberty and the devices are covered by a white, natural frost. This type of DMPL is the rarest and most dramatic looking, as well as the most sought after by collectors.

BRILLIANT:

This state of strike offers little to no contrast. Deeply mirrored coins may look subdued due to the lack of frost and silvery reflective appearance of Miss Liberty on the devices. Brilliant DMPL's commonly occur from later strikes from worn down dies and weak or improper basining of the dies. These coins are silvery and aluminum like in appearance.

GREY:

The entire coin is totally subdued by grey, "washed out" looking lustre. This is a result of poor or no die basining and not a later state of striking. The mirrors tend to be shallow and hairlined. The devices possess minimal to no frosting and look identical to the fields. The eye appeal of these coins is dull and rather "washed out" looking. Grey DMPL's can easily be confused for Semi-Prooflikes, or even cleaned coins at first sight. Most dates after 1900 are of the grey DMPL state, as well as a few earlier dates that were struck by older business strike dies or an old Proof die.

DMPL'S SCARCITY – NON MINTING OBSTICLES

Finding a fully black and white DMPL in MS-63 or better is an amazing feat today. Recently, we handled three original Brilliant Uncirculated bags of solid date Morgans. The grades of the coins from these bags ranged from one or two MS-61's to several MS-65's. Most importantly: out of the 3,000 Uncirculated Dollars, five coins were a low grade designation. However, none would qualify or even close to

qualify for full DMPL status! We believe these were original bags, as all the coins were uniform. Thus, we assume they were not "put together" over a period of time. This gives more credence to the theory that the Mint did not give special treatment to first strikes. More likely, it dumped all the dollars into bags of 1,000 coins and released them to banks.

The vast majority of the 711 million Morgan Dollars appears to have entered circulation. No one knows how many of these ended up in the melting pots, but we've heard estimates that approach the 50 percent level.

This leads us to believe that only a small fraction of all DMPL's, that were rare to begin with have survived, approximately 100 years after they were struck. As of March 1998, PCGS and NGC have certified a combined total of 1,696,397 Mint State Morgan Dollars vs. a combined 36,037 MS-63 and better DMPL's. Remember, this figure is based on 12 full years of operation for PCGS and 11 years for NGC.

In addition, transportation and handling factors may have contributed to the low survival numbers of DMPL Morgan Dollars. Bags of coin were transported by relatively crude methods over rough terrain by wagons. These conditions allowed the coins to be violently tossed, hitting one another, and in some cases creating severe marks. Then once at the bank, they were put through harsh counting machines, causing further damage resulting in counting marks and even some unnatural discoloration. Banks in the late 19th century and early 20th century did not store bags in moisture free vaults. This storage climate caused additional problems such as: water spots, hazy mirrors, and loss of lustre. So, as you can see, most Morgan Dollars went through much trauma before they reached the publics' hands.

In conclusion, finding a DMPL with limited distraction is like finding a needle in a haystack. Any coin in true GEM, MS-65DMPL or finer is much rarer than you think and is well worth its premium – especially when the coin is cameo! Watch for substantial appreciation of DMPL Dollars in the future.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and 'gem' rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; 'gem, full steps' rolls (when available) bring higher prices. In the Mercury series, 'gem, full bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or 'put together' bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN LONG BEACH

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1997, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, **Spectrum paid \$3,065,845** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

**See us at the Long Beach Show
June 4-7, 1998, Long Beach, California

GOLD COIN PREMIUMS SOAR

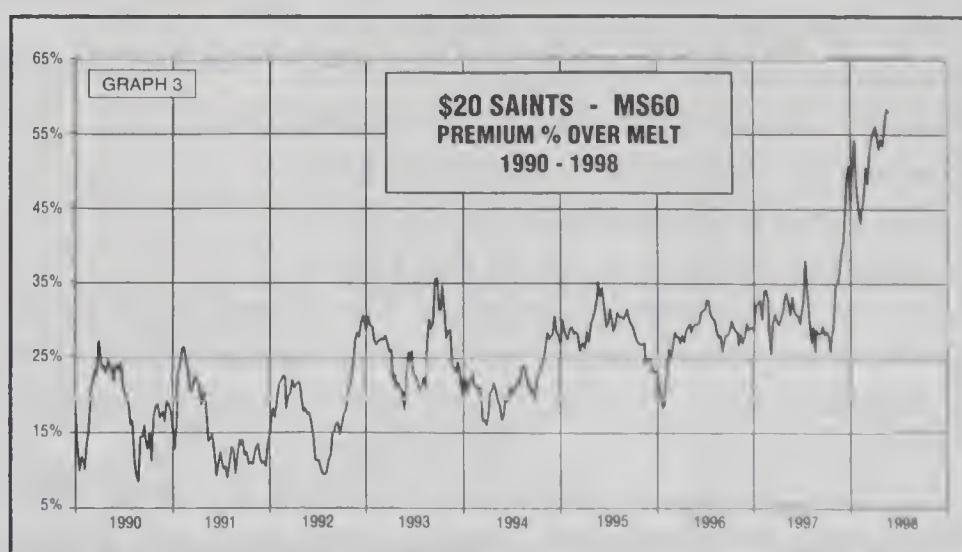

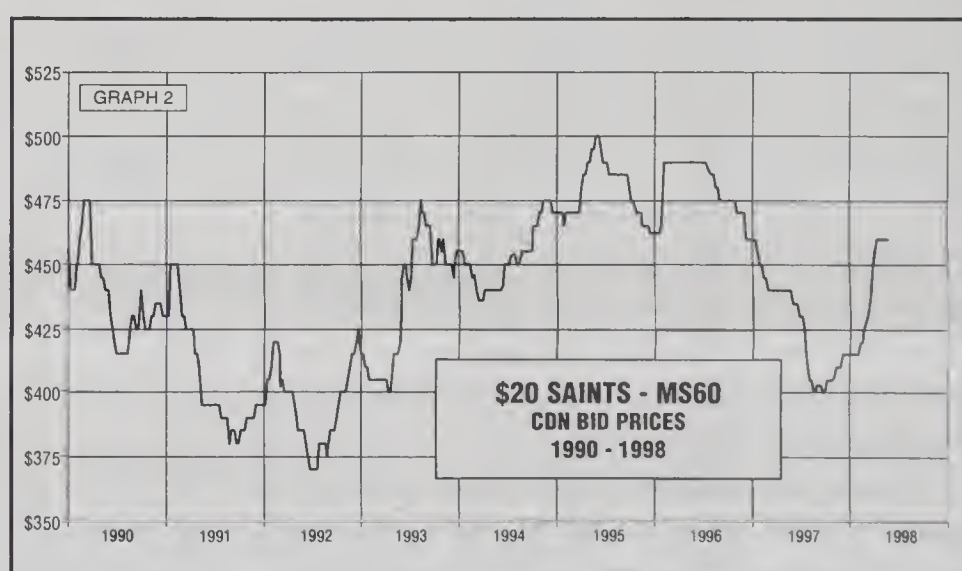

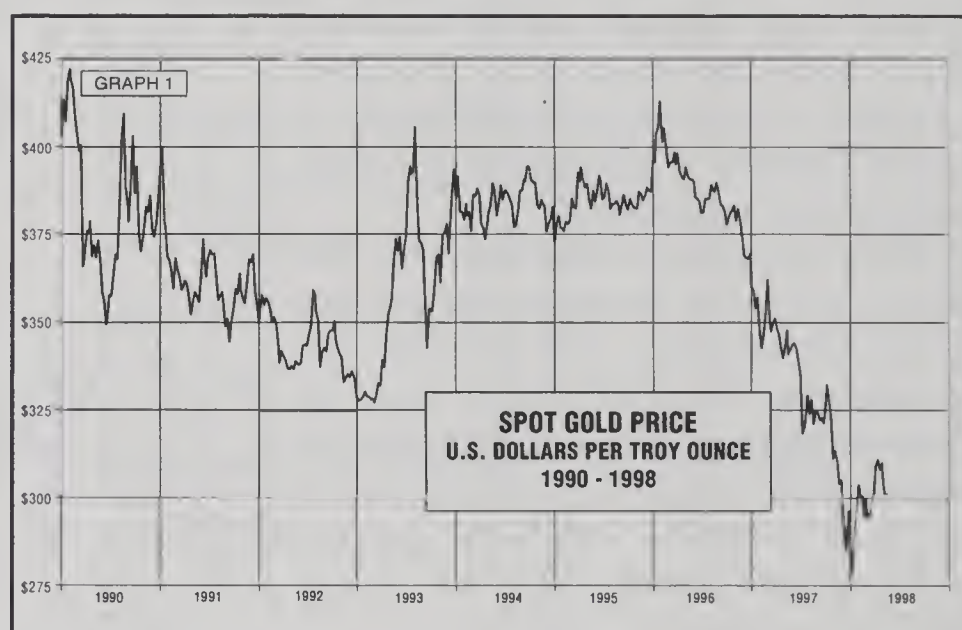

by Richard N. Nachbar

Since we last discussed Double Eagle premiums in these columns in 1996¹, much has happened to this popular, high-volume sector of numismatics. First, Gold bullion prices collapsed over \$100 per ounce (Graph 1). Then \$20 Saint-Gaudens and \$20 Liberties joined in a similar, steep price decline. But then, in September 1997, with Gold bullion still months ahead of its final January 1998 low, the prices for "Saints" and "Libs" reversed sharply to the upside, parting company with bullion and causing their collector premiums over their Gold value to **double** in just a few months.

In hindsight, reasons for the precipitous Gold decline are now fairly well known. Most have read extensive media coverage of large central bank **sales** and equally large **forward** (advance) sales of Gold mining companies' anticipated future production. Less well known has been the central bank **leasing** of even larger quantities of physical Gold, enabling several hedge funds to execute massive speculative short selling programs with the borrowed bullion. Combining these factors, as many as 10 years of annual world mine production glutted bullion markets during 1996 and 1997. If not for simultaneous record **demand** for the yellow metal - primarily from Asia - prices might easily have fallen to \$250 per ounce or even lower.

Graph 2 illustrates the CDN Bid price for MS60 Saints. Note the bottom put in at \$400 per coin during September 1997 more than 3 months before bullion bottomed at \$278 in January 1998 (Graph 1). The Bid price then rallied to \$460 per coin, where we find it today (June 5, 1998) as this article is being completed. This sharp price increase in MS60 Saints - in the face of a continuing decline in the underlying Gold price - caused their premium percentage over melt to explode to a decade high 58% today, as Graph 3 clearly shows.

The first logical question becomes "What might have caused these sharp price and premium increases?" and then "How does this compare historically over a greater period of time?"

¹ - See the July 1996 CDN Monthly Supplement article *Market Bottom in Place? Double Eagle Premium Percentage Analysis Warrants Optimism* and the November 1996 CDN Monthly Supplement article *\$20 Liberties - Collector Premiums Near Historic Lows*.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

the COIN DEALER Newsletter

First, either the available **supply** of Saints was reduced from normal flows, or the **demand** for Saints greatly increased, or a combination of the two factors were at work. Since average U.S. collector and investor demand is normally met by a steady flow of several thousand pieces per month being imported from European bank vaults, a check with the major U.S. importers reveals a somewhat reduced supply in recent months, according to an informal poll just undertaken.

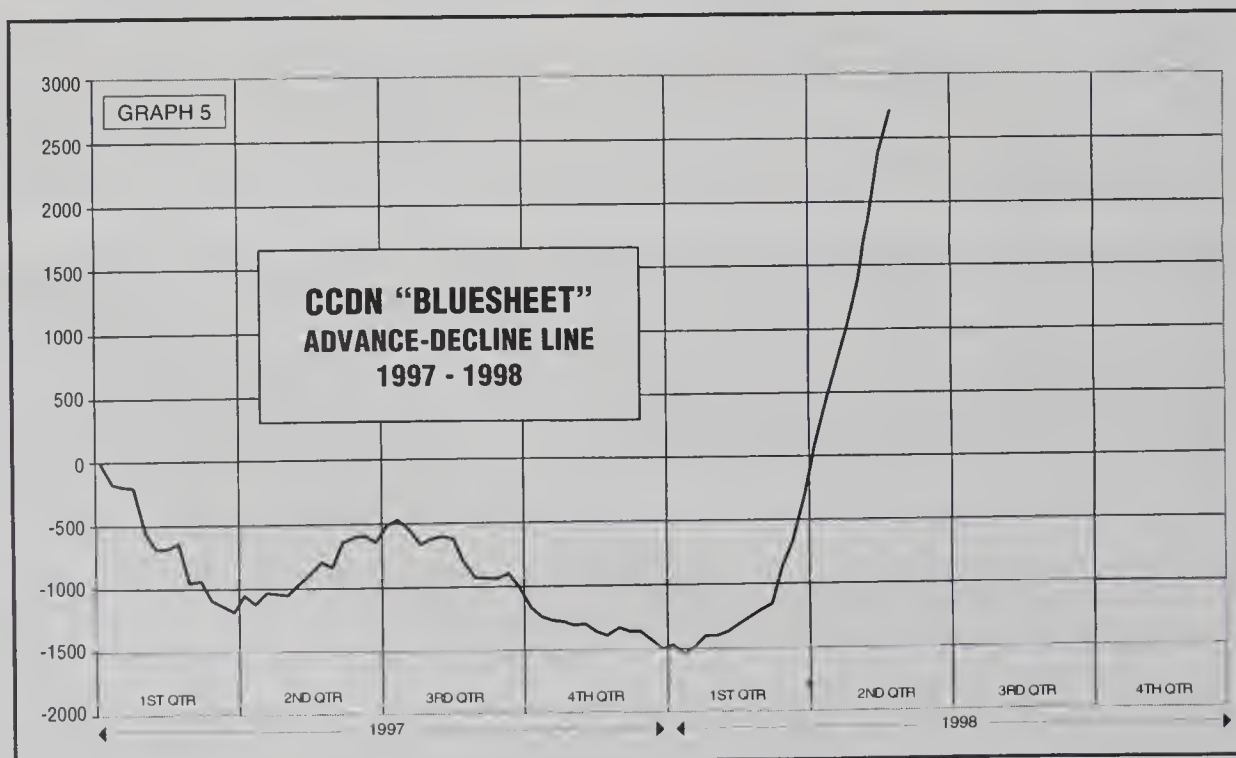

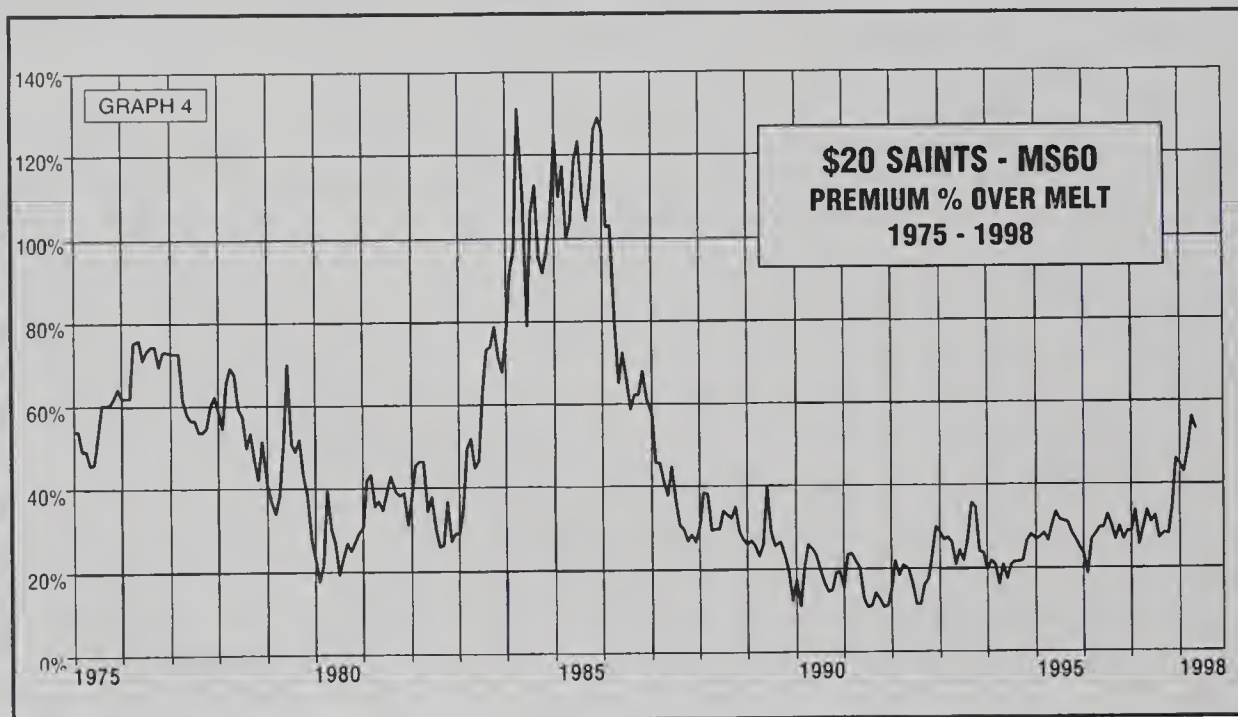

More revealing is the fact that this supply reduction seems to extend also to the \$20 Liberties, \$10 Liberties and \$5 Liberties. Premiums over melt for those coins are also now at highs for the decade.

On an historical basis, the current higher premiums can be viewed as a **return to average levels** seen over the past 25 years (Graph 4). Graphs for MS60 \$20 Lib premiums, as well as for AU50 \$20 Saint and AU50 \$20 Lib premiums, are quite similar - they seem to have recently returned to the **average or mean** of the past 25 years. This would appear to denote a very comfortable **balance** presently between supply and demand for these big, old and collectible U.S. Gold coins.

However, something further still appears to be supporting these recently higher levels. Graph 5 expresses this "something else" in a very dramatic way. Appearing for the first time in the CDN Monthly Supplement, the **1997-1998 Bluesheet Advance - Decline Line** shows a major trend change taking place in reported Bid prices for all the 10,074 price listings in that publication. The minus signs have nearly disappeared and now the plus signs exist weekly by the hundreds. This technical market breadth indicator is now stronger than at any time since 1989.

Collectors have significantly stepped up their purchases of not only bullion-laden Double Eagles, but also

of virtually every other series of coins covered in the CDN family of publications. A fresh new attitude is now sweeping across the marketplace for rare U.S. coins. Have you checked your seat belt recently before the summer begins?

| MODERN AMERICAN EAGLES | | | | | | | | | |

North American Collectibles Association

Do it right the first time!

Insurance protection for your numismatic inventory requires only one major decision-talk to the insurance professionals at North American Collectibles Association first.

Proven Track Record

16 years of experience in providing insurance for coin dealers.

Coverage to Fit Your Needs

Each coverage option available through NACA has been developed to respond to the specific needs of coin dealers.

Service, Service, Service,

It is the name of the game, and Barb Wingo has been on the front line of this one for many years.

Prompt Handling of Claims

Claims receive prompt investigation and response.

NACA Members Have Volume Buying Power

- Save \$1,000s on Federal Express shipments.
- Discount on Safes & Vaults.

Building a Type Set of Early U.S. Gold Coins

By James R. McGuigan

Introduction

Many collectors seek to assemble Type sets of U.S. coins. Based on their interests and financial resources, they sometimes limit their collections to certain time periods, e. g., 20th century or 19th and 20th centuries, or to certain denominations, e. g., Half Cents through Silver Dollars. Among collectors of Gold coins, many limit their Type sets to the Coronet (Liberty) Head and later designs. An often overlooked numismatic area is early (i. e., pre-Coronet) U.S. Gold coins. Early Gold coins, that encompass a broad range of different design types, are available in relatively high grades. Most of the various types of early Gold coins can be obtained for less than \$5,000 each in About Uncirculated condition. Prices of specimens of the rarer design types are comparable to prices of some of the scarcer early Copper and Silver Type coins in similar condition, such as the 1793 Chain Cent, 1796 Small Eagle Quarter, and the 1796-97 Small Eagle Half Dollar.

This article provides some information on early U.S. Gold coins. Mintages and survival rates of these coins, data on certified early Gold coins, sources of price data for these coins, and some comments on assembling a Type set of these coins are presented.

Types of Early U.S. Gold Coins

The U.S. Mint began issuing Gold coins in 1795. The first obverse design featured a Capped Bust facing right, representing Liberty, and was used on all three denominations beginning with the Half Eagles and Eagles in 1795 and Quarter Eagles in 1796. Various Capped Bust or Capped Head designs on the obverse, along with several different representations of an eagle on the reverse, were employed to strike Quarter Eagles and Half Eagles until the late 1830's and Eagles until 1804. (Eagles were discontinued after 1804.) Beginning with the Eagles in 1838, the Half Eagles in 1839, and the Quarter Eagles in 1840, a common design (with minor changes over the years), known as the Coronet Head, was employed to strike these denominations until 1907.

Early U.S. Gold coins are generally considered to be the coins issued prior to the Coronet design. The exception to this statement is the Coronet Eagle of 1838-39 (with Large Letters on the reverse), which is often considered to be part of a Type set of early U.S. Gold coins.¹ Following the framework enumerated in the *Coin Dealer Newsletter*, the discussion will focus on fifteen types of early U.S. Gold coins:

Quarter Eagles

Capped Bust Right, No Stars (1796)
Capped Bust Right, Stars (1796-1807)
Capped Draped Bust (1808)
Capped Head Left (1821-27)
Modified Capped Head Left (1829-34)
Classic Head (1834-39)

Half Eagles

Capped Bust Right, Small Eagle (1795-98)
Capped Bust Right, Heraldic Eagle (1795-1807)
Capped Bust Left (1807-12)
Capped Head Left (1813-29)
Modified Capped Head Left (1829-34)
Classic Head (1834-38)

Eagles

Capped Head Right, Small Eagle (1795-97)
Capped Head Right, Heraldic Eagle (1797-1804)
Coronet Head, Large Letters (1838-39)

In forming a Type set of early Gold coins, each collector is free to add coins to (or delete coins from) this list depending on his/her interests and financial resources.

Mintages and Survival Rates

The estimated mintages for the fifteen different types of early Gold coins are shown in column (a) of the Table. As can be seen, the mintages range from less than 1,000 pieces for the Capped Bust Right, No Stars (1796) Quarter Eagle to over 2,000,000 specimens for the Classic Head (1834-38) Half Eagle. Of the fifteen different types, eight have mintages under 100,000 pieces.

The survival rates of many of the early Gold coin issues are very low because of extensive melting of the coins during the 1820's and early 1830's.

During this period, the large quantities of Silver bullion being mined in Mexico and other Latin American countries depressed the price of Silver and, in effect, raised the price of Gold. As a result, the Gold bullion value of the coins exceeded their face value and many of the coins were withdrawn from circulation by bullion dealers and melted. The Mint itself melted over 24,000 Half Eagles that it held prior to the passage of the Mint Act of 1834. This Act reduced the weight of the Gold Eagle from 270 grains to 258 grains and its fineness (i. e., proportion of Gold) from 11/12 (.9167 Fine) to 232/258 (.900 Fine). Corresponding changes were also made in the Quarter Eagle and Half Eagle. Breen estimates that over 99 percent of the Gold coins minted prior to the weight reduction in 1834 were melted, contributing to the scarcity of these coins.²

Certified Early U.S. Gold Coins

Condition. Early Gold coins that have survived are in relatively high grade. Columns (b), (c), (d), (e), (f), (g), and (h) of the Table show the grade distribution of PCGS and NGC certified early Gold coins as of April 1998.³ As can be seen, more than 90 percent of the coins graded are in Extremely Fine or better condition, with the most commonly encountered grade being About Uncirculated.⁴ Early U.S. Gold coins, as well as the larger Silver denominations (i. e., Half Dollars and Dollars) are usually found in better condition because, prior to the establishment of a strong banking and currency system, individuals and institutions often held their wealth in the form of Gold and Silver coins. In contrast, early U.S. Copper and smaller denomination Silver coins (i.e., Half Dimes, Dimes, and Quarters) are typically found in well worn condition because of their widespread use in commerce during the early Federal period.

Although most of the pieces that survived are in fairly high grades, very few gem specimens are known. As indicated in column (g) of the Table, less than one percent of the approximately 14,000 early Gold coins graded by PCGS and NGC qualify as gems (MS65 or better).

Relative rarity. The relative rarity of certified specimens of the fifteen different types of early U.S. Gold coins is shown in column (h) of the Table. As can be seen, the total number of pieces graded of each type ranges from 50 for the 1796 Capped Bust Right, No Stars Quarter Eagle to over 2,700 for the 1834-38 Classic Head Half Eagles. Survival rates among the various types of early Gold coins, as measured by grading service data, vary widely. Later-dated issues, despite comparable (or larger) mintages, are not necessarily more readily available than earlier-dated issues. We see from the Table that several of the types struck during the 1820's and 1830's, such as the Capped Head Left (1821-27) Quarter Eagle, Modified Capped Head Left (1829-34) Half Eagle, and Coronet Head, Large Letters (1838-39) Eagle, are actually scarcer than some of the issues struck during the 1790's, such as the Capped Bust Right, Small Eagle (1795-98) design Half Eagle and Capped Bust Right, Small Eagle (1795-97) design Eagle. Also, while both the Capped Head Left (1813-29) and Modified Capped Head Left (1829-34) Half Eagle types have comparable mintages (approximately 668,000 and 700,000 respectively for each type), over *six times* as many of the Capped Head Left (1813-29) Type (835) have been graded compared with the Modified Capped Head Left (1829-34) design (129).

Sources of Price Information

The *CDN Monthly Supplement* contains price data for the various types of early U.S. Gold coins in various grades from Fine to MS65. The prices shown are for accurately graded coins, certified or "raw" specimens and generally represent the wholesale prices for the most common dates of each type. Prices for the better dates and major varieties are listed in the *CDN Quarterly II* (Quarter Eagles) and *CDN Quarterly III* (Half Eagles and Eagles). The *Certified CDN* periodically list sight-unseen Bids for PCGS and NGC certified early Gold coins in grades from AU58 to MS65. These values are representative of wholesale prices for "low-end" certified common dates of each type. "Premium quality" certified specimens, especially ones that the owners feel can be cracked out and resubmitted to the grading services for a higher grade, generally trade at significant premiums above the prices shown in the *CDN*.

Another important source of price information is prices realized at major public auctions. Many of the transactions involving the rarer types of early Gold coins occur at major public auctions conducted by such firms as Bowers & Merena, Heritage, Stack's, and Superior. Therefore, a collector should obtain these catalogs (usually they can be purchased on an annual subscription basis), including the prices realized, in order to keep up to date with respect to the most recent market transaction prices.

Collecting Early U.S. Gold Coins

Assembling a Type set of the fifteen early Gold coins requires both patience and a substantial financial commitment. While many of the more common types are available for sale at major coin shows and public auctions

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

considerable searching over a period of a year or more may be required to locate some of the rarer types [e. g., Capped Bust Right, No Stars (1796) and Capped Draped Bust (1808) Quarter Eagles] in the desired grade and/or price range.

Possible sources of these coins include dealers that advertise in numismatic publications, major coin shows, and major coin auctions. Attendance at major coin shows, such as ANA, FUN, Central States, and Long Beach, is probably the most efficient method of locating many of the scarcer type pieces. Finally, attendance at major public coin auctions is also an effective method of locating early Gold coins for your Type set. If other commitments do not permit you to attend coin shows and auctions, an alternative is to give your want list to a dealer with whom you feel comfortable doing business and let that person locate the coins you need or represent you at auctions.

Examination of the pricing data in columns (i), (j), and (k) of the Table (taken from the July 10, 1998 CDN Monthly Supplement) shows that the wholesale price of the fifteen piece early Gold Type set is approximately \$88,000 in Extremely Fine condition, \$125,000 in About Uncirculated condition, and \$267,000 in MS60 condition. [Recall that the vast majority (i. e., about 80 percent of the surviving population that PCGS and NGC have certified) are in the Extremely Fine, About Uncirculated, and low-end Mint State (MS60-62) grades.] In comparison, the (wholesale) prices of a 30 piece Type set of early U.S. Copper and Silver coins (i. e., from 1793 up to and including the Bust Silver coinage of the 1830's) are approximately \$100,000 in Extremely Fine, \$151,000 in About Uncirculated, and \$267,000 in MS60. Thus, although the average price per coin is somewhat greater, the total cost of an early Gold Type set is actually less than the total cost of an early Copper and Silver Type set in comparable Extremely Fine or About Uncirculated condition and virtually the same in MS60 condition.

The initial reaction of many collectors is that the cost of an early Gold Type set is beyond what they can afford (or wish) to spend on rare coins. However, spreading the total cost over a multi-year period (e.g., purchasing one or two coins per year) makes building such a collection a much more feasible undertaking. Additionally, spreading the purchases out over a multi-year period allows the collector to dollar cost average his/her investment. Like the overall economy, the coin market is subject to cyclical changes. Assembling a Type set of early Gold coins over a period of several years will allow the collector to purchase some of the coins at (relatively) favorable prices during downturns in the coin market.

Summary

In summary, we see that early U.S. Gold coins are quite scarce due to the relatively low mintages combined with the low survival rates that resulted from extensive melting of the coins during the 1820's and 1830's, when the Gold bullion value became greater than the face value of the coins. Additionally, from PCGS and NGC data, we see that the coins that did avoid being melted survived in relatively high grade. Finally, we see that the total cost of a Type set of early U.S. Gold coins in these relatively high grades (i. e., Extremely Fine, About Uncirculated, or MS60) is less than or about equal to the

total cost of a Type set of early Copper and Silver coins in comparable condition.

Assembling a Type set of early U.S. Gold coins represents a serious challenge for advanced collectors who are looking for coins that are old, scarce, and available in relatively high grade. Completing such a collection will give you the satisfaction of owning some truly significant coins from the early Federal period.

Footnotes

¹ See Breen, *op. cit.*, p. 549 for enlarged photographs of Christian Gobrecht's original Coronet Head design of 1838-39 and the modified Coronet Head used from 1839 to 1907.

² Breen, *op. cit.*, p. 527.

³ The reader should keep in mind that the table includes "crack outs" that were resubmitted to the grading services. Therefore the actual number of different coins may be somewhat less than the total number of pieces listed.

⁴ One needs to be careful about making inferences with respect to all early Gold coins from grading service data. For example, since higher quality pieces are more likely to be submitted to the grading services than are lower quality coins, the grade distribution of this group of coins (i. e., sample) may not be exactly representative of the grade distribution of all early Gold coins (i. e., population).

Jim McGuigan is a professional numismatist, specializing in early U.S. Copper, Silver, and Gold coins. He can be contacted at: P. O. Box 133; N. Versailles, PA 15137; (412)247-4484.

MODERN AMERICAN EAGLES

All Modern Eagles and Sets must contain complete original U.S. Mint packaging.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.
MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.
MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.
MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.
MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.
MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.
Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

BUYING OR SELLING HIGH-GRADE U.S. RARITIES? CALL PINNACLE RARITIES TODAY!

WHY?

Here are a few reasons hundreds of dealers and collectors call us every day:

- We pay stronger prices because we service the end collectors.
- We work on lower percentages than our competitors.
- We are aggressive at pursuing the coins you need.
- We make every transaction simple and easy. Trades are welcome. Financing is available.

SOME OF THE THE SPECIFIC RARITIES WE'VE SOLD IN JUNE 1998

- Δ 1896 \$20 Liberty PCGS PR-67 (The only PR-67 in the series!)
- Δ 1824 Capped Bust 50¢ NGC MS-68 (The only MS-68 in the series!)
- Δ 1907 Rolled Edge \$10 PCGS MS-66
- Δ 1909-S VDB 1¢ PCGS MS-67RD
- Δ 1903-S \$10 Liberty PCGS MS-67
- Δ 1941-S Walking Liberty 50¢ PCGS MS-67 (Pop. 1)
- Δ 1916-D Walking Liberty 50¢ PCGS MS-67 (Pop. 1)

SOME OF THE COINS PINNACLE PURCHASED FROM THE THAINE B. PRICE COLLECTION:

HOW TO COLLECT TYPE THREE DOUBLE EAGLES

By Doug Winter and Mike Fuljenz

Type Three double eagles have proven to be a very popular series with collectors. It is a long-lived and highly varied series with issues ranging from extremely common to extremely rare.

Type Three double eagles are appealing for a number of reasons. They are big, beautiful coins which can be appreciated even by the non-collector. They are plentiful enough that many issues can be found in high grades. However, many are scarce enough that they also appeal to the rarity conscious collector.

There are a number of excellent ways to collect Type Three double eagles. The following listing contains a number of suggestions.

1. Collecting Type Three Double Eagles As Type Coins: Type coin collectors seek to obtain one representative example of a specific type or design. For Type Three double eagles, they would focus on obtaining a common date in the highest grade that they can afford. There are a number of specific dates which they might purchase including the 1900, 1901, 1903, 1904 and 1904-S. Each of these is common enough in grades up to and including Mint State 64 that there is little—if any—date premium.

A Type set could be made more interesting by including a common date from the 19th century in addition to one from the 20th century. The most common Liberty Head double eagles from the 19th century includes the 1895, 1897, 1897-S, 1898-S and 1899. These are easily obtainable in Mint State 63 but they are somewhat scarce in any higher grade.

If you are interested enough in Type Three double eagles to take the time to read a book devoted to this series, the chances are good that you will become more involved with them than as mere Type coins. If you decide to purchase a Type Three double eagle strictly as a Type coin, it might make sense to pay a small premium to obtain a date that is a bit more rare in higher grades.

2. Collecting Type Three Double Eagles By Mint: Type Three double eagles were produced at five Mints: Philadelphia, San Francisco and Carson City, New Orleans and Denver. Some collectors are attracted to the issues from just one of these Mints and they attempt to put together a complete set of dates and major varieties.

Assembling a complete thirty-one coin set of Philadelphia Type Three double eagles is very difficult and costly. The 1881, 1882, 1885 and 1886 each had extremely limited original mintage figures (between 571 and 2,199 coins) and are seldom available to collectors. The rarest of these are the 1882 and the 1886, both of which are represented by approximately 20-25 surviving examples. The 1883, 1884 and 1887 dates were struck only as Proofs. If a collector wishes to have a truly complete set, he will have to include this trio and can count on spending upwards of \$50,000 per coin for examples in the Proof 63 to Proof 64 range and considerably more for Gems.

There are other Philadelphia issues which are far more elusive than generally known, especially in the higher Mint State grades. These include the 1877-1880, 1888, 1890, 1892, 1898 and 1905. The 1891 is an extremely rare and very overlooked coin, in spite of its tiny original mintage figure of 1,390 business strikes. It is actually comparable to some of the more-heralded dates from the 1881-1886 era and an acceptable specimen will cost the collector between \$7,500 and \$15,000.

A complete thirty coin set of San Francisco Type Three double eagles can be assembled without great difficulty. There are no dates that stand out as being rare in all grades and just a small number are hard to locate above Mint State 62 to Mint State 63. The scarcest Type Three issues from this Mint are the 1879-S through 1882-S date run and the 1887-S. A very attractive set with all coins grading between Mint State 62 and Mint State 64 could be assembled for approximately \$30,000-\$40,000.

The Carson City Type Three double eagles are the most popular issues with collectors. A total of twelve different dates were produced between

1877 and 1893. Unlike the Type Two issues from this Mint which have one issue (the 1870-CC) that makes a set nearly impossible to complete, the Type Three Carson City set can be easily completed. The key issues are the 1878-CC, 1879-CC, 1885-CC and the 1891-CC. All four of these are very rare and costly in Mint State but choice About Uncirculated pieces can be obtained for \$4,000-\$8,000+ per coin, depending on quality. An extremely nice set of Type Three Carson City double eagles can be assembled for approximately \$30,000-\$40,000. This includes all of the more common dates in Mint State 60 to Mint State 62 grades and the "big four" mentioned above (plus the 1877-CC) in grades ranging from AU-55 to AU-58. Production of Type Three double eagles at the New Orleans and Denver Mints were very limited. The 1879-O is the only Type Three New Orleans issue. Just 2,325 were struck and approximately 100 survive with most of these in Extremely Fine grades. The Denver Mint opened in 1906 and produced relatively large numbers of Liberty Head double eagles in 1906 and 1907. The 1906-D is common in all grades up to Mint State 63 but it becomes scarce in Mint State 64 and very rare in Mint State 65. The 1907-D is the more common of these two issues as it is more often used as a Type coin.

3. Collecting Type Three Double Eagles By Year: A popular and practical way to collect Type Three double eagles is by year. Such a collection would consist of a single example for each year in which the Type Three design was produced. In this case, such a set would have thirty-one coins.

In a Year Set, it is advisable to choose the most affordable issue produced in a specific year. For example, an 1879-S double eagle would be chosen over an 1879 Philadelphia, 1879-O or an 1879-CC since the San Francisco coin is the easiest to obtain in both circulated and Uncirculated grades. The 1879-O would be the least likely coin to include in this set due to its rarity and comparably high price.

There are a few years that are very difficult to find affordable double eagles from any Mint. In 1885, only two Mints struck double eagles. The Philadelphia issue is very rare while its Carson City counterpart is quite scarce but affordable, especially in lower grades. The 1886 is perhaps the most difficult year in this entire set as only the Philadelphia Mint produced double eagles and just 1,000 business strikes were made. Every other year contains at least one common issue that can be purchased by the collector with average means.

4. Assembling A Complete Set of Type Three Double Eagles: Many collectors decide to assemble a complete set of Type Three double eagles. Such a set will include one example of each Type Two double eagle struck between 1877 and 1907. Including the Proof-only years of 1883, 1884 and 1887, a complete set consists of 76 coins. (Due to the price of these three coins, many collectors decide not to include them in their set. If this is done, the theme of the set can be changed from being a "complete set of Type Three Double Eagles" to a "complete set of business strike Type Three Double Eagles.") For the most part, the grades of this set will range from Extremely Fine to Mint State. The more common issues are generally represented by high grade coins while the rarer issues are represented by lower grade pieces. The rarities of this set are 1881, 1882, 1885, 1886 and 1891. These dates are seldom offered for sale and will cost at least \$10,000 for above average examples. However, most of the other Type Three double eagles are well within the budget of the average collector.

There are some basic principles that the complete set collector should follow as he acquires coins. A complete set should be as well-matched as possible. The collector should try to purchase coins that have a similar appearance. As an example, a collector might try to acquire coins that are as original as possible and which show reasonably similar coloration.

A complete set should not be "all over the map" as far as grades are concerned. Instead of spending \$10,000 on an unappealing, bagmarked 1879-O (as opposed to a choice example of this date in this price range) merely to fill a hole, buy two or three outstanding MS-62 semi-key dates from the 1870's. Do not assemble a complete set with unrealistic expectations. A collector who has previously worked on more common sets may approach Type Three double eagles with the idea that he will be able to complete this set in the higher Mint State grades. Since many issues in the Type Three double eagle series are essentially non-existent above Mint State

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

60 (and some like the rare Philadelphia dates from the 1880's are either unknown or excessively rare in Mint State), certain allowances will have to be made. Conversely, a collector does not have to settle for coins he does not like just because he thinks he will not be able to do any better.

Set building is the key to realizing additional value without spending extra money. This phenomenon is known to numismatists as a "set premium" and it definitely applies to Type Three double eagles. Carefully assembled sets of coins that have proven over the years to bring substantial premiums over randomly assembled, meaningless accumulations of coins.

There are many examples of important sets of United States coins. These include some of the following collections:

- * The John Jay Pittman collection was primarily assembled between the mid-1940's and the mid-1950's. Pittman, who was an engineer at the Eastman Kodak Co., and was able to assemble a fabulous collection of United States and world coins on a relatively limited budget. It is believed that in his entire numismatic career, he spent under \$100,000 on coin purchases. Despite this fact, his United States coins realized over \$25 million when sold at auction in 1997 and 1998.

- * The Garrett family collection was formed by a railroad executive and his sons between the mid-1860's and the late 1930's. After it was donated to Johns Hopkins University, it was sold at auction for more than \$25 million in a series of four sales held between 1979 and 1981. Many of the record prices realized in these sales have never been broken.

- * The Louis E. Eliasberg, Sr., collection of United States Gold coins was sold at auction in 1982 for over \$11 million. The copper, nickel, Silver and Gold coins were auctioned in 1996 and 1997 for over \$30 million. This collection was started in the 1920's, then in the 1940's Eliasberg purchased the famous John Clapp collection. Eliasberg continued to add to the collection and by the time he died in 1976, he had assembled the single greatest U.S. coin set ever formed by an individual. Today, coins that are pedigreed to the Eliasberg name bring a strong premium.

- * The Harold S. Bareford collection was assembled in a seven year period between 1947 and 1954 at a cost of \$13,882. In 1978, it was sold at auction for \$1,207,215—and it would probably bring multiples of that figure today.

Starting a set of coins is fun and challenging. Finishing a set can be very profitable. The entire collecting process makes the set building experience worthwhile from start to finish. Perhaps your name will someday be as recognizable as Pittman, Garrett, Eliasberg and Bareford!

An especially good idea for the new collector would be to discuss assembling a set of Type Three double eagles with a dealer who specializes in 19th century Gold coins. Get his thoughts about grade and each specific date that should be purchased. Reading this book should also give the collector a good idea about this as it attempts to give a breakdown of the total number known of each date in each grade range.

5. Collecting By Die Variety: For most Type Three double eagles, a number of different obverse and reverse dies were employed. As one die became worn and/or damaged, it was replaced by a new die. The different combinations of dies created a number of die varieties.

The field of Gold coin die variety collecting is extremely fertile. Very little has been written about the varieties of U.S. Gold coins and next to nothing has been written about the die varieties of Type Three double eagles. It is very probable that a number of interesting, potentially rare die varieties exist for this series.

A collector wishing to start a die variety collection needs to pay attention to such things as date placement, Mintmark placement and diagnostic characteristics such as die scratches and/or die breaks. He should record this information and compare each example of a specific date that he has the chance to examine.

While it is possible that this sort of collecting may become popular in the future, for now it is the province of a tiny handful of specialists. Therefore, the die variety collector should not pay an extra premium for supposedly

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

rare varieties (such as a Mintmark position previously unseen on a specific issue)

6. Collecting Proof Type Three Double Eagles: Proof Type Three double eagles were struck in exceedingly limited quantities at the Philadelphia Mint from 1877 through 1907. In fact, the mintage for Proofs for the entire thirty one-year period was just 2,414 pieces.

The tremendous rarity of these coins is what makes them appealing to a small segment of wealthy collectors. It is possible to assemble a complete set of Proof Type Three double eagles. However, this set would require considerable patience and a very deep pocketbook.

Most of the Proof Type Three double eagles that appear on the market grade in the Proof 63 to Proof 64 range. The extreme rarity of Proof 65 and better examples makes this set all but impossible to complete in the highest Proof grades.

Before you finish this article, the authors would like to share their respective numismatic philosophy. We call it the "Five P's" of rare coin collecting and we think it can be applied to any series of coins.

1. Popularity: We feel that it makes sense to collect coins that are already popular and that have every reason to be popular in the future. A coin such as the Type Three double eagle is already popular and it figures to get even more popular as time goes on. (Not to mention the fact that our new book should help to further the popularity of this series as well...)

There are two other important factors to consider. The spectacular S.S. Central America hoard, that was recently featured on NBC's "Dateline" and which is the subject of a new book by Gary Kinder entitled, "Ship of Gold in the Deep Blue Sea," contains thousands of choice Type One double eagles. This is certain to stimulate interest in all types of this design. If a new collector purchases a Type One double eagle from this hoard, there is a possibility that he will become interested in Gold coins and buy more double eagles. The second factor has to do with a large increase in new Gold coin buyers from U.S. and foreign Mint co-operative ads: Typically, a new client is exposed to coins through bullion pieces such as American Eagles. He is then often steered towards numismatic coins and, more likely than not, he is sold \$20 Liberty Gold pieces. This practice has added hundreds—if not thousands—of new buyers to the double eagle arena.

2. Precious Metal: This can be summed up in two words: Gold or Silver. Coins struck in precious metals are more popular and sell more easily than coins struck in copper, nickel or bronze.

3. Pretty: People like coins that are big and pretty better than those that are small and poorly designed. A coin such as the Type Three Liberty Head double eagle has a very pleasing design that can be appreciated by the new and veteran collector alike.

4. Preservation: It is always a smart decision to purchase coins in better than average condition. A coin that is above average is much easier to resell in the future and it is more likely to show appreciation than a coin which is only average or below average. (In the Type Three double eagle series, this is easy to gauge by looking at the rarity estimates in this book).

5. Population: Since the formation of PCGS in 1986 and NGC in 1987, there has been an important body of empirical data developed by the two services. Each service publishes a population report that totals the number of coins that they have graded at each grade. Coins with low populations are, obviously, much more desirable than coins with high populations.

These are just some of the ways to collect Type Three double eagles. Part of the appeal of coin collecting is the myriad of possibilities that it offers to the imaginative collector.

THREE-CENT PIECES (Nickel)

Complete set (no

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

The PCI Capsule...

- ✓ \$7⁵⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$7⁵⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Inventory Selections

THE RARE GEM 1942/1-D MERCURY DIME PCGS MINT STATE-66 FULL BANDS

Millions of "Mercury Dimes" were produced from 1916 through 1945, resulting in only a small number of scarce issues. Rarer than any of the various date/mint combinations are several interesting and dramatic varieties. Premier among these are the overdates of 1942. The hurried production coin dies during the booming wartime economy led to mistakes, and both the Philadelphia and Denver Mints received obverse dime dies that exhibited the date 1942 clearly impressed over the reading 1941. These flaws evidently went unnoticed and the dies were put into general service.

The Denver mint variety was not discovered for years afterward, when all but a few of these overdate dimes had become worn or lost to time. Any mint state example is rare, but a gem specimen such as that presented here is extremely so. A boldly struck coin, it features full bands on the fasces, a feature highly regarded by collectors. In addition, this dime is enriched by bright, frosty luster throughout. Entirely untoned, it looks just as it must have on the day it was made. Interesting, beautiful, and rare, this delightful coin has everything a collector could desire.

\$29,500.00

THE SPLENDID 1877 INDIAN CENT PCGS PROOF-66 RED

An oversupply of minor coins (cents through nickels) existed in 1877, and the coinage of cents stopped early in the year. Fewer than a million pieces were issued for circulation, making this the rarest date in the series. The number of proofs coined went unrecorded, but it has been estimated at anywhere from 510 (Walter Breen) to 1500 (Q. David Bowers). What is certain is that relatively few survive today, and most of these are of mediocre quality. Bowers noted in his book on this series that "Proofs are usually seen toned brown or red and brown."

This gem proof has virtually no toning at all, though what does exist is a vivid and attractive magenta color. The fields of this delightful cent are brilliant and mirrorlike, its surfaces are exceptionally clean. This specimen is also quite boldly struck. Its combination of condition rarity and aesthetic value make it an extremely desirable coin.

\$22,500.00

THE SPLENDID GEM 1892-O BARBER HALF DOLLAR PCGS MINT STATE-67

This superb specimen was coined at the New Orleans Mint during the first year of issue. That facility's mintmark letter 'O' may be seen beneath the eagle's tail feathers. Only 390,000 1892-O half dollars were coined, making it one of the scarcer issues in this very popular series. Unlike most earlier series, Barber Halves are frequently collected by date and mint, making such a low-mintage issue a very desirable coin in the higher grades.

One of the finest, if not the finest, known 1892-O halves, this charming specimen was coined from fresh dies. This is evident in its brilliant, prooflike fields and generally sharp strike. The devices are lightly frosted, imparting a subtle cameo quality to the beautiful coin. Just the faintest hint of golden toning may be seen on what is otherwise a dazzlingly white and extremely impressive half dollar.

\$29,500.00

THE RARE GEM 1916-S HALF EAGLE PCGS MINT STATE-65

Only the San Francisco Mint issued gold coins for circulation in 1916. The discovery of a small hoard some years back has enabled collectors to secure mint state examples of the scarce 1916-S half eagle. Though the quality of these pieces fell well below the gem level. In grades MS-65 and higher, this issue remains quite rare. Author and gold specialist David Akers estimated that just 11-20 examples survive at this grade level, making the 1916-S half eagle one of the scarcer coins in the series.

The wonderful specimen presented here is a sheer delight. Unusually well struck for an 'S' Mint coin, it features a particularly bold mintmark. The surfaces of this gem are quite clean for its type, frosty in the fields and satiny on the devices. A coin of immense aesthetic value, it is also a distinctive rarity for the finest collection.

\$27,500.00

THE ULTRA-RARE 1884 TRADE DOLLAR NGC PROOF-65

The mystery surrounding the 1884-85 trade dollars has only served to enhance their allure for collectors. Just ten examples were reportedly coined of the 1884 issue, and indeed no more are known today. This piece is quite possibly the finest of these.

As one would expect this fabulous proof specimen is fully struck in every subtle detail. Its gently frosted devices contrast nicely with its brilliant, mirrorlike fields, and the surfaces of this beauty are remarkably clean. Memorable for both its rarity and quality, this stunning coin is included in the pantheon of select American treasures.

\$400,000.00

THE EXTREMELY RARE 1929 INDIAN HALF EAGLE PCGS MINT STATE-65

In his comprehensive reference book on mint state gold coins of the 20th Century, David Akers rated this edition as R-6 in MS-65 or better condition, indicating that he knew of just six to ten examples.

An absolutely wonderful specimen, this lovely coin is fully struck throughout and features bright luster of uniformly frosty texture. Its surfaces bear only a few light marks and are exceptional in this regard. For the connoisseur of rarities, this half eagle is nearly without peer.

\$39,000.00

A FINAL GEM 1864 SMALL MOTTO TWO CENT PIECE PCGS PROOF-65 BROWN

This lovely specimen is fully struck and a splendid gem indeed. As proof represent the pinnacle of the minter's art, it is fully struck throughout and displays brilliant, highly reflective fields. A rich chocolate brown color overall, this specimen also exhibits vivid blushes of attractive orange, magenta and aquamarine. A classic American rarity, it is a visual treat, as well.

\$39,500.00

THE VERY RARE 1930-S INDIAN EAGLE PCGS MINT STATE-65

The fabulous 1930-S Indian Eagle offered here is among the finest pieces known. A blazing gem, its surfaces are free of all but the most insignificant marks. A bold strike contributes to its stellar appearance. The Indian Head Eagle series is a perennial favorite with sophisticated collectors, and this rare issue is one of the real keys to its completion. Such a gem offers the opportunity to own a coin with few, if any, peers.

Standing Liberty Quarters: More Than A Few Key Dates

by Jay H. Cline

It is easy to forget (and some have perhaps never realized) how scarce some dates other than the much sought after keys of the Standing Liberty Quarters series are with a full head. Some dates and Mintmarks can leap 50 to 80 times in price over those without the Full Head description. In the very early days of coin collecting, the *1951-52 Red Book*, which was one of the few reference books on the subject, said "Full heads are worth up to 50% above prices listed below". At that time, there were only two grading columns listed; Fine and Uncirculated. This was in the mid 1950's before all the research was done on this series. Of course, the 1909-S V.D.B. Lincoln Cent was listed retail in Fine at \$8.50 and Uncirculated at \$12.50. The 1916 Standing Liberty Quarter retailed in Fine at \$35.00 and Uncirculated at \$90.00. Time sure changes things - **Wow!** Just look in the mirror. There is much that can be said about research and finding out just how rare certain dates and Mintmarks are when fully struck i.e. Full Heads, Full Bands, Full Bell Lines, Cameo or Deep Mirror Prooflike.

A very rare find is the 1916 Standing Liberty Quarter struck without the designer's initials and laid on Secretary of Treasury McAdoo's

desk. This is the only one in Proof and now rests in a PR65 NGC holder.

The secret for advanced information is research, study and application. The best pathway to knowledge is reading and research. The Standing Liberty Quarter series is peppered with rare and scarce dates and Mint States that are otherwise common. For instance the 1926-D is a very common coin in MS62 through MS65, having an original mintage of 1,716,000. However, when struck with a Full Head and with that notation on the holder it becomes one of the rarest pieces in the series - more so than the

1916! The total population of 1926-D's including XF/AU through MS67 FH is a mere 66 examples. That count includes any pieces that were broken out and resubmitted for higher grade, etc. Therefore the actual number may be even lower - my guess is 10-20% lower and I feel that is a conservative guess. This would leave approximately 54 pieces with the Full Head description - all the way down to the lone AU58 FH.

As you will see throughout the rest of this article, there are many surprises in the series with regard to scarcity/rarity of what would otherwise be common dates but are greatly advanced when Full Head is added to the description.

We will focus on the other Key and Semi-Key Dates. Most collectors know the key dates of the Standing Liberty quarter series; the 1916, 1918/7-S and the 1927-S. When you add the Full Head designation to certain dates and Mintmarks, the scarcity lineup changes. For example, the 1926-D quarter has the second most pieces slabbed in non Full Head: 2117 by PCGS, NGC: 955, but only 2 pieces MS66; none Full Head. The 1917-P Ty.I is the only issue with a greater population. But as I wrote in the first edition of my book, "*Standing Liberty Quarters*" published in 1975, the 1926-D has the most Uncirculated pieces, but one of the lowest in number of Full Heads. The 1926-D in Full Head sells for as much as 70 times the price of non Full Head 1926-D's. This is true of the 1926-D's all the way down to XF/AU provided that the head is indeed sharp and distinct.

Regarding the Full Head designation, there is much variation in individual analysis as well as the grading companies' opinions. Since this is what determines the high price on these pieces, it should be there - all the way. No dispute.

| | |
|----------------------------|--|
| Full Head: | Minimum requirements necessary for this designation. |
| Sharp Full Head: | Just that. |
| Ultimate Full Head: | All hair curls and twigs must be fully struck and rounded stems must appear on the twigs. Hair above Miss Liberty's ear must also be rounded and fully struck. |

Not many pieces in this series come that fully struck at the head; not even in MS66, MS67 and MS68. Superior strikes command a premium price. For example; the 1919 MS68 FH that sold at the Boy's Town Sale fetched \$40,000. **Wow!** What a price for a coin that is listed at \$1,000 in MS65 FH!

The 1920-S from AU through MS66 is relatively common, but add the Full Head designation to this and that changes dramatically. The retail price of a 1920-S in MS65 is only \$2,000, but the 1920-S in MS65 FH has a value that crosses \$30,000. An MS64 FH retails around \$15,000! The 1920-S is still the sleeper of the series in MS65 FH or MS66 FH. There are only 35 precious pieces graded in MS64-65-66 FH, not counting any breakouts. Those 35 pieces are the combined total of population reports from PCGS and NGC.

The 1919-S in MS65 (a semi-key of the series) would be about \$3,000. In MS65 FH, the price increases tenfold. Even an XF/AU Full Head commands \$1,200/1,400. Many collectors still accept the challenge of assembling a Full Head set.

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

The 1919-D is comparable to the 1920-S, demanding a tenfold price increase for the Full Head specimens. Saying it is one thing, but there are lots of variations in opinions - even among the experts. Variation such as an indistinct sharp line separating Miss Liberty's face in the temple, cheek, and throat areas. There are some in holders stating "Full Head" that should not be, listed that way in my opinion. A 1919-D can and should have a very distinct Full Head, But a few with this date and Mintmark are in the **Ultimate** Full Head category, commanding much higher prices.

The 1926-S is another semi-key of the series because XF/AU through MS66 pieces have a large percentage with the head detail worn away (AU's) or not fully struck. An extremely low number of MS Full Head pieces appear in the reports: PCGS lists 31 pieces and NGC depicts 27 pieces in Mint State with the Full Head designation. How many of these pieces were resubmitted for a possible upgrade? That affects the totals because the inserts were not always returned to the grading services when coins are cracked out for raw resubmissions. Therefore, these high numbers in the population reports must be held suspect.

Lets look at the 1920-D. Over 3 1/2 million pieces were originally Minted. This is not often thought of as a key date, but in AU and better condition, if you add the Full Head description things change. The 1920-D has the prestigious position of being one of only two pieces in the entire series with an example graded MS68 FH. It traded hands for over \$60,000! The PCGS population report totals 93 pieces while NGC has reviewed 36 pieces. An MS66 FH currently retails for about \$15,000 and the MS67 FH about \$25,000. This is a far cry from a common date which usually brings about \$4,000 in MS65 FH.

Naturally, the reason for this is due to the very low number of pieces in this ultra high grade of MS67 and better. NGC has a population report of 3 pieces and PCGS has listed 4 pieces. This is if there were no breakouts. The number of MS66FH pieces is a mere 6 pieces total for both grading services! So you can readily see in higher grades it is a very tough date and qualifies as a key date.

Next, there is the 1924-S in MS65 FH. That is usually available for \$5,000-\$6,000. There are only 25 pieces in PCGS MS65 FH and MS66 FH with no MS67 FH. There are only 18 pieces slabbed by NGC, with 2 pieces in MS67 FH. When there is a low population, it goes without saying that they can command some very sensational prices. There is much demand in these higher grades. It is rumored that one of the MS67 FH pieces in an NGC holder was sold for over \$50,000. This is definitely not what you would call a common date. However in MS60, the meager premium is about \$350 without Full Head detail.

What about the 1918-S? This date and Mintmark is so often weakly struck, even though it may have a nice Full Head. Weakness is usually seen on Miss Liberty's right leg (left as you look at the coin). The **Eliasberg** coin is a case in point. Technically, it was a hands down MS65 FH. However, because of the weakness on the obverse and the small planchet flaw on reverse, both PCGS and NGC graded the coin MS64 FH. I should point out that it does have great toning. Then there are the usually unthought of key

dates such as the 1928-D MS65 FH and MS66 FH. First, the normal strikes are very flat including the two bottom stars on either side of Miss Liberty's feet. Sometimes, they are missing completely and the head is incused and rather dished out! The price tab of the MS65 non Full Head is about \$400-\$450 retail. However when you add Full Head to the description, its retail value increases about 20 fold. The reason for this jump is obvious. The vast majority of examples were struck without Full Heads. Sloppy strikes or worn dies are the two schools of thought on this date. I adhere to the latter of the two. I come to this conclusion because it was struck during the roaring '20-S and striking dies were used long beyond their normal life span. Also, the head is the first area to wear out. So the 1928-D in MS65 FH and MS66 FH is definitely a key date or semi-key date. If found in AU FH, it still brings 4 to 5 times the price above the non Full Head examples.

The 1929-D in MS65 FH and MS66 FH is very much in the same category as the 1928-D. The total PCGS population in MS 65 FH and better is only 27 pieces. At NGC, it is 13. Both bottom stars on either side of Miss Liberty are frequently missing and this coin usually retails about 15 times its price in MS65 non Full Head. I believe it should be at a higher multiple, comparable to the 1928-D. This information about the 1928-D and 1929-D should take these dates out of being common date varieties. I refer to these two dates and Mintmarks as the twins of the Standing Liberty Quarter series. The 1919-D and 1919-S is another set of twins in this series. That is because its price structure is so closely paralleled.

The 1923 is certainly not considered a key date in the Standing Liberty Quarter series, **but** if you look at the reports from NGC and PCGS, you will see that the combined total of MS65 FH, MS66 FH, MS67 FH and MS68 FH is 69. **Wow!** What a low population for a Philadelphia Mint coin! An MS65 non Full Head can retail at \$445.00, but jump to a whopping \$3,900 in MS 65 Full Head!

The 1921 is a tough year by itself, however, the population of the 1921 in MS65 FH, MS66 FH and MS67 FH from PCGS and NGC combined is 59 pieces. It retails for approximately \$4,000. That is what you would expect for a 1921 MS65 FH. It is a semi-key but in an MS65 non Full Head it still brings about \$1,500.00.

Finally we come to the 1923-S. Everyone knows how difficult it is to find a 1923-S in circulated condition, even in Good or Very Good. Still, it is a much sought after piece and I regard it as a semi-key coin of the series. It's population at NGC and PCGS totals a mere 80 pieces in MS65 FH, MS66 FH and MS67 FH. The 1923-S is represented as a key of the series, but the 1923-S has a higher population than the 1923 Philadelphia. Yet, it still sells for more than the 1923 "Philly". It should be the other way around. Oh well: c'est la vie.

J. H. Cline - Rare Coins

P.O. Box 68 • Palm Harbor FL 34682

PH: 800/749-2207

The Coins Of 1804

1804 Bust Dollar

One of America's Most Famous Rarities. This Coin Needs No Introduction Except To Say It Is A Class Three PCGS PR58 Draped Bust Dollar. Pedigree: Amon Carter Collection. Price.....\$950,000

1804 Draped Bust 25C NGC AU55

This Coin Is A Pleasing
Problem Free AU Coin.
Pedigree: Eliasberg.
Price.....\$18,500

1804 Draped Bust 25C NGC MS63

This Is An Original Toned
Coin. Pedigree: Norweb
Collection.
Price.....\$70,000

1804 Draped Bust \$10 NGC MS63

Original Spot Free Surfaces,
Well Struck, And No Major
Adjustment Marks.
Price.....\$85,000

National Gold Exchange, Inc.

14309 North Dale Mabry, Tampa, Fl 33618

Ph# 813-969-4111 Fax# 813-969-4003

National Gold Exchange

"The Industry's New Standard"

Why National Gold Exchange:

- ◆ We Stock Over \$12.5 Million Of Raw & Cert. Inventory
- ◆ Twelve Full-Time Professional Numismatists On Staff
- ◆ Leading Importers of U.S. & European Gold Coins
- ◆ We Are Aggressively Seeking New Customers
- ◆ Aggressive Financing & Terms Available
- ◆ Multi-Million Dollar Credit Facility
- ◆ Industry Leading Technology
- ◆ Two Way Market Makers

America's Gold & Silver Rare Coin Wholesaler

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

BUYING OR SELLING HIGH-GRADE U.S. RARITIES? CALL PINNACLE RARITIES TODAY!

WHY?

- We pay stronger prices because we service the end collectors.
- We work on lower percentages than our competitors.
- We are aggressive at pursuing the coins you need.
- We make every transaction simple and easy. Trades are welcome. Financing is available.

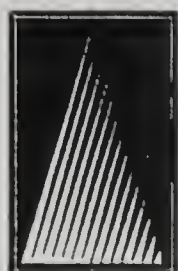

JUST A FEW OF THE EXCITING NUMISMATIC ISSUES WE'VE SOLD IN THE PAST MONTH:

- Δ 1862 (Type 1) \$20 Liberty NGC PR65 Cameo
- Δ 1861 (Type 1) \$20 Liberty PCGS MS65
- Δ 1860-O Seated Dollar PCGS MS65
- Δ 1834 Half Dime PCGS MS68
- Δ 1910 \$5 Indian NGC PR65
- Δ 1899-S 25¢ NGC MS68
- Δ 1837 Classic \$5 PCGS MS65
- Δ 1801 Draped Bust \$10 PCGS MS64
- Δ 1875 Trade Dollar PCGS PR67
- Δ 1866 Seated Dollar NGC PR67
- Δ 1922-S \$20 Saint Gaudens NGC MS66
- Δ 1932 \$20 Saint Gaudens NGC MS66

CIRCULATED ROLLS

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then **Spectrum Numismatics** is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. Spectrum offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the **King of Cash.**

Mysteries of the Flying Eagle & Indian Cent market.

By Richard Snow

The market in Flying Eagle and Indian Cents is currently very strong. In this strictly collector orientated market, we are seeing record prices being paid for outstanding coins and high volume in all grade ranges when nice coins are available. With all this activity, it should be a simple task to chart the prices to accurately reflect the market. However, the vast quality differences inherent in all copper and bronze coinage together with wide swings in grading "tightness" and "looseness" over the past 10 years of certified grading have created an Indian Cent market where prices seem to be all over the place. Attractive examples bring strong money and sell fast, and ugly examples are offered at bargain prices and just sit around. Collectors tend to be quite picky when it comes to their bronze (as well as pre-1857 copper) coins. Bronze coins develop a unique character which will either turn a collector on or off. Dealers must follow their customers desires or suffer from a high return rate. Because of this, there is virtually no sight-unseen market for these coins at any price close to reality. Similarly graded coins offered at auction may go for widely varying prices depending on their eye appeal factor. These quality and aesthetic differences found on Indian Cents translate to a widely differing prices.

Against these problems, in 1994 our firm, Eagle Eye Rare Coins, decided that we could make a Bid/Ask market in quality Flying Eagle and Indian Cents. To do this we issued a price guide tabulating all our retail sales, correlated them with our Bids on the satellite systems. Our minimum bid was pegged at 75% of our current retail price. If we offered a coin for more, it meant that we're paying more as well. To combat the problem of quality inconstancies of the certified population, we started what we call Eagle Eye Photo Seal, where we label PCGS and NGC holders and issue photo certificates for Flying Eagle and Indian Cents that met our definition for the grade and color designation. Since starting Photo Seal and developing the market we have found out some very interesting things that make sense where there was previously only confusion.

We found that once collectors are shown coins which have consistent quality for their grade, their grading knowl-

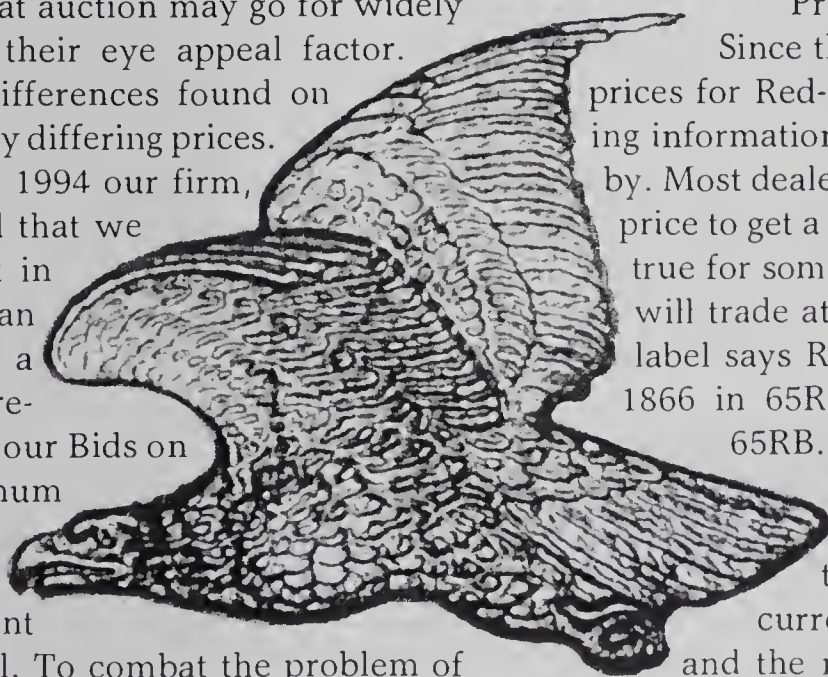

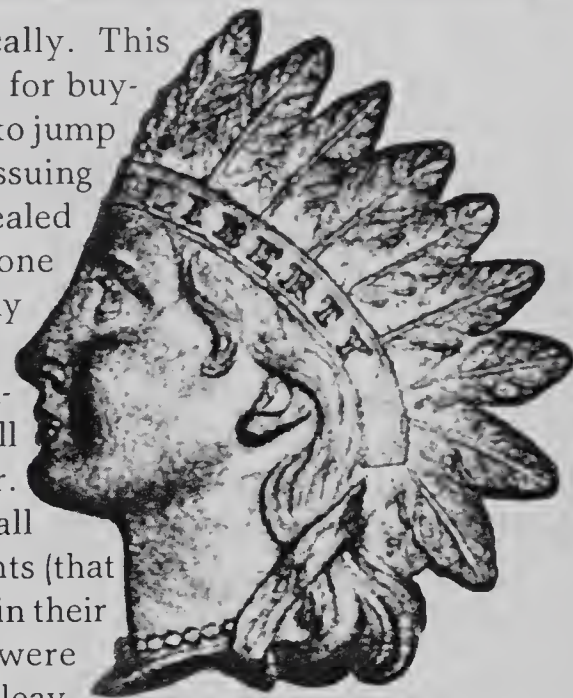

edge improves dramatically. This causes their comfort level for buying high end Indian Cents to jump as well. Since we started issuing our price chart, Photo Sealed MS-65RD Indians have gone up in price steadily, in many cases doubling in value.

There used to be a concern regarding how well full red coins retain their color. We have found that most all original full Red Indian cents (that were graded properly) retain their full red color unless they were stored improperly (such as leaving them out in direct sunlight). Full red coins that have fingerprints, spots, and splotchy toning that are not accounted for in the grade/color are either misgraded or were enhanced or mishandled prior to being certified. With thousands of Photo Sealed coins in collectors hands, we have never seen one that actually changed color (from red to red-brown) in its holder. Of course, coins that have been artificially enhanced or were graded full red in error do not get Photo Sealed by us.

Pricing Full Red Indians is also a mystery.

Since the CDN Monthly Supplement only lists prices for Red-Brown coins in MS-64 and MS-65, pricing information for full Reds may be difficult to come by. Most dealers use a general rule of doubling the RB price to get a ballpark price for full reds. This may be true for some of the common dates, but many dates will trade at 3 to 10 times their RB price when the label says RD. For example our current bid for an 1866 in 65RD is \$7,500, compared to \$800 for a 65RB. But if the quality is off, a certified example may go begging at \$2,500. This quality dependence is the reason that a general market, based on the coins currently in holders cannot function easily, and the reason that we must continue to issue Photo Seals. We maintain sight seen Bids on all dates in 64RB and 65RB as well as 64RD and 65RD and make offers on higher grades.

Another mystery is the 1856 Flying Eagle Cent, arguably the most popular US coin. The bid price listed in the CDN Monthly is for a Mint State example only, which research done in the past 25 years has shown to be from the S3 die pair, with the repunched 5 on the date. Mint correspondence of the day, together with die marriage information shows that these were among the coins struck prior to

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

December 6th 1856, and make up the majority of the original production of 634 pieces presented to Congress to effect passage of the Coinage Act of February 21, 1857. The Proofs are made from a few different die pairs at various times between 1856 and 1860 and were struck in quantities between 1000 and 1500 pieces. Proofs are priced in the CDN Quarterly, not in the Monthly Supplement. The Mint State pieces are much more highly sought after, accounting for the widening of the price in recent years.

The pricing for Proof issues seems to a mystery as well. Many dates that are scarce in Mint State are more common in the Proof series. Dates from 1866 to 1878 can be cheaper in Proof than their Mint State counterparts. The dates in the 1880's are the common dates. The dates in the 1890's and 1900's are actually some of the tougher ones.

The circulated Indian Cent market is also a mystery to some. Many dates are actually rarer in original XF and AU grade than those of the same date graded MS60 to MS63. Of course the price can't be higher for an AU than it is for a MS63, but the downward pressure that the low MS63 price puts on AU's makes the dealers job of locating decent XF and AU examples very hard. When decent examples are not available, cleaned and corroded coins (which are worth only a fraction of the retail price) seem to be everywhere.

Another mystery is how awful cheap the entire series is in RB grades and high end circulated. In light of the great collector demand, the Bids seem to be at levels lower than 15 years ago. Here are some examples taken from the June 1984 CDN (not a high water mark for the market by any means) and the current Bids.

| | June 1984 | | | October 1998 | | |
|--------|-----------|--------|--------|--------------|---------|--------|
| | XF | AU | MS63 | XF | AU | MS63 |
| 1857 | \$48 | \$115 | \$550 | \$75 | \$110 | \$410 |
| 1860 | \$18.25 | \$40 | \$285 | \$35 | \$60 | \$130 |
| 1864-L | \$105 | \$160 | \$365 | \$140 | \$160 | \$325 |
| 1869 | \$110 | \$148 | \$365 | \$200 | \$260 | \$375 |
| 1877 | \$600 | \$775 | \$1825 | \$950 | \$1375 | \$2350 |
| 1882 | \$8.75 | \$14 | \$80 | \$10.75 | \$17 | \$62 |
| 1900 | \$4.60 | \$9.25 | \$70 | \$4.60 | \$10.50 | \$20 |

Are Indians underpriced? We have many, many collectors on our client list eager to buy nice, correctly graded, problem free coins from XF to MS and Proof at levels much higher than currently reported. We think they know something that has been a closely guarded

secret - Flying Eagle and Indian Cents are quite undervalued in today's market.

We believe the mystery in the low market prices comes from the many problem and ugly coins that are on the market. There is very little wholesale activity in problem free, original, correctly graded Indian cents. Most retail dealers have ready customers for quality Indian Cents when they present themselves. Most dealers do not mind holding quality Flying Eagle and Indian Cents in XF and above in their inventory. They know a sale will occur soon enough, they won't have to wholesale it off. A "wholesale only" dealer can quickly resell nice coins he acquires at current levels. Only the ugly pieces are tough to sell. These unwanted ugly coins may act to depress prices when dealers sell them off cheaply to clear out dead inventory.

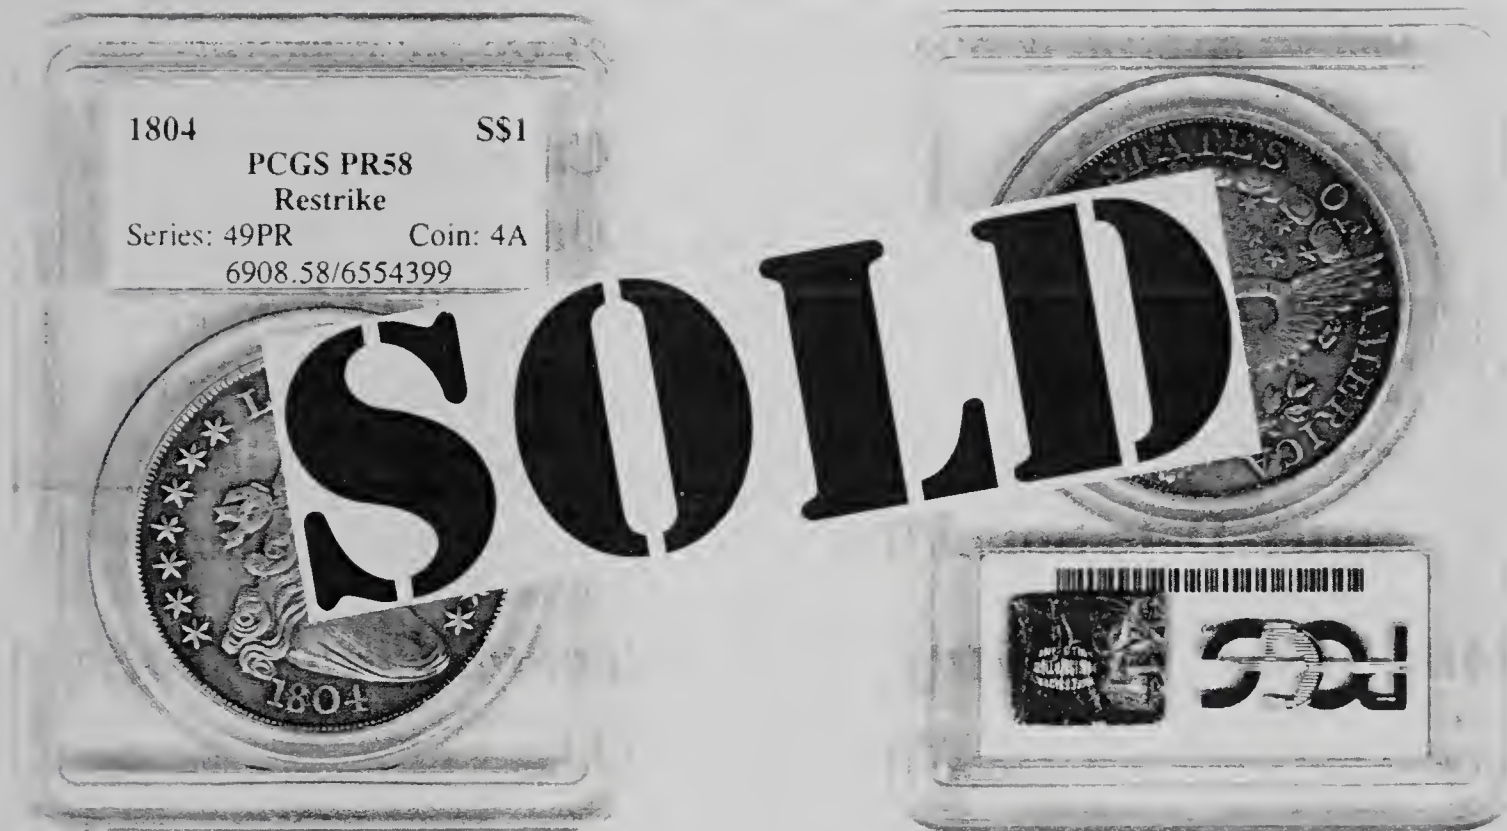

This is a series that offers much to the adventurous collector. Those who choose to assemble a nice original XF and AU set are in for quite a challenge. Those who want nice quality for a still affordable price may choose to collect a MS63 to MS64RB set. Collectors who want the best, but don't enjoy spending over \$10,000 on a coin will enjoy assembling a MS65RB set. For those who want the best and are willing to pay for it, the MS65RD set offers a bigger challenge than most other series. Fewer than 10 such collections are possible to complete. A full Proof collection is also a challenge, and if the 1864-L (20 known) and the rare 1857-58 Flying Eagles are omitted, the collection can reasonably be accomplished.

While collectors finish their Mint State set and their Proof set, they can add the numerous popular varieties such as the overdates and doubled dies. There are two distinct varieties of the 1858/7, and two varieties of the 1888/7. Also popular are the doubled dies of 1857, 1858 LL, 1864 No L, 1866, two varieties of the 1873 Closed 3, 1887 and others. One of the most desirable varieties are the three odd and popular varieties of the 1857 Flying Eagle Cents with clash marks from dies of other denominations. Presently a Seated Quarter reverse clash, a Seated Half obverse clash, and a Liberty Double Eagle obverse clash are known (S7, S8 & S9). Mysterious indeed!

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and 'gem' rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; 'gem, full steps' rolls (when available) bring higher prices. In the Mercury series, 'gem, full bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or 'put together' bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. M5-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

GOLDMUNZEN INTERNATIONAL RONALD J. GILLIO, INC.

Ronald J. Gillio Auctions / Gillio Coins Ltd. Hong Kong

Professional Numismatists

** Since 1961 **

Specializing in U.S. Gold: \$1 through \$20, 1795-1932, Common to Rare.

We are one of the largest importers of U.S. gold coins from Europe since 1961. We offer competitive prices on all U.S. gold, especially \$10's and \$20's, and we are a major producer of slabbed coins through PCGS and NGC.

Date: 9/28/98

CDN MONTHLY SUPPLEMENT *newsletter*

Vol. XXIII No. 11

November 13, 1998

Single copy price: \$4.00

Value Abounds in \$20 Saint-Gaudens Series

by Don Bonser

Augustus Saint-Gaudens' \$20 Gold piece is one of the most beautiful twentieth century coin designs. Still, there are quite a few dates in the series that can be obtained for a reasonable amount of money. Also, each coin contains .96749 ounce of pure Gold, has helped me to sell many of these gorgeous coins to my clients. In my experience, there are relatively few set collectors of "Saints." Although not particularly large, the set contains quite a few **daunting** dates that are not only prohibitively expensive for many, but also can be difficult to find, period.

However, many financially secure collectors and investors enjoy "putting away" some of these beautiful coins. Often, they are unaware of the variety of dates in nice condition that a moderate budget can purchase. I have seen and handled a number of accumulations of Saints that were purchased with the idea of acquiring "more" - and after accumulating a couple of dozen to several hundred pieces, their interest waned.

There's nothing wrong with buying a lot of MS62 thru MS65 1924, 1925, 1926, 1927, and 1928 Saints—if that's what your client wants, go for it! (And, currently, there seems to be no shortage of people doing just that!) However, some clients may maintain more interest and better diversify their collections or portfolios if they are introduced to some of the less common, but not prohibitively expensive dates.

I've selected dates and grades that, based on current values and population figures, certainly seem to make a great deal of sense. Here is my "Top 20." With each date and grade, I've listed the total combined PCGS/NGC population (October and July 1998 population reports respectively). Also included is the coin's October CDN Monthly Supplement Bid in the selected grade and the next higher grade. There is also a brief description of the coin's usual appearance, or "look." Your clients should understand that a 1915-S Saint will not look like a 1927. I was surprised by an occasional return of a nice coin, until I understood that everyone is not as familiar as we are with our merchandise!

The combined PCGS and NGC population report total for all dates of Saint-Gaudens \$20 gold pieces: MS63, 243,128; MS64, 175,980; MS65, 57,643.

1907 \$20 NO MOTTO, MS64. CDN Bid MS64 \$900, MS65 \$2200, population 3,174, 1269 better. This is the High Relief's "first cousin," and can be surprisingly difficult to locate. These

almost always come with brilliant, flashy yellow luster, and a slightly flat strike, probably an over correction as to why the gorgeous High Relief was discontinued—banks could not stack it! Overshadowed by the High Relief, it's probably somewhat undervalued. The MS63 at \$625 isn't a bad deal, either.

1908-D \$20 NO MOTTO, MS64. CDN Bid MS64 \$1550, MS65 \$9000, population 428, 42 better. With common MS64's at \$725, this appears to be a true sleeper. They are not easy to find, and sell quickly when located. An attractive MS64 is virtually indiscernible from an MS65. So, for about a sixth of the price, it appears to be a true bargain. These are typically better struck than their 1907 counterparts, although their luster is a bit more subdued—sort of like the difference between an 1879-S Morgan dollar and an 1881-CC.

1908-D WITH MOTTO, MS64. CDN Bid MS64 \$1025, MS65 \$3680, population 515, 102 better. My comments are a virtual carbon copy of those for the 1908 No Motto, except the MS65 Bid isn't as high. Try to specifically locate one at a show sometime—it probably won't be easy!

1909 \$20, MS63. CDN Bid MS63 \$2150, MS64 \$5650, population 383, 86 better. This is a date that is far from common in the lower grades, and it becomes outright scarce to rare in MS63 and higher. Many otherwise nice coins are **plagued** by high-point friction and/or contact marks, reducing their grades to the AU58 to MS62 range. This date is typically well struck and has attractive gold luster. With MS65 Bid at \$40,000, an MS64, if you can find one, looks like a good deal too!

1909-D \$20, MS64. CDN Bid MS64 \$4100, MS65 \$30,000, population 58, 10 better. This is an even tougher coin than the 1909. So although most examples have nice, orange-gold luster and are well struck, the majority of surviving Uncirculated examples have an unfortunate number of contact marks and/or friction. You may well guess that I also like the MS63 at a Bid of \$2420.

1909-S \$20, MS64. CDN Bid MS64 \$950, MS65 \$4100, population 871, 94 better. Although more common than its Philadelphia and Denver siblings, the 1909-S becomes decidedly uncommon in MS64 and higher grades. It often sports a more attractive appearance as well. These often have flashy, although somewhat satiny yellow-orange luster and are generally well struck. Many displays a slightly granular or "**orange peel**" look, similar to the 1915-S (discussed later), which (to me) makes them more attractive. It also makes contact marks a little less distracting!

1910 \$20, MS63. CDN Bid MS63 \$620, MS64 \$1050, population 1,310, 504 better. Certainly it's not a rare coin, but it is many times scarcer than a common MS63, yet doesn't cost a lot more. These usually have attractive, golden, satiny luster and a good strike. The professional grading services seem to allow, on average, a few more contact marks for this date in this grade.

EDITOR Keith M. Zaner

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter (Bluesheet)** provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

1910-D \$20, MS64. CDN Bid MS64 \$830, MS65 \$2350, population 1361, 371 better. This is many times scarcer than a "common" MS64, but still only sells for a little more. They are typically well struck and have attractive, golden-orange luster.

1910-S \$20, MS63. CDN Bid MS63 \$665, MS64 \$1100, population 757, 416 better. Here's another date that is much scarcer than a generic, yet sells for only an incremental premium. These are typically well struck, although not quite as well as the 1910-D, and have a smooth, yellow-orange luster.

1911 \$20, MS63. CDN Bid MS63 \$950, MS64 \$2120, population 332, 253 better. This is an often-over looked date that is scarce in any grade of mint state, and especially so in MS63 or above. They are usually well struck and have nice, yellow-gold luster, although other dates are perceived by many to be more attractive when comparing two coins of the same grade. With MS65's at \$11,500, the MS64 looks okay, too.

1911-S \$20, MS64. CDN Bid MS64 \$755, MS65 \$4600, population 893, 137 better. The "spread" between MS64 and MS65 makes a high-end MS64 that much more attractive. This date is scarce, and the premium over a common MS64 isn't all that much. It certainly has a lot going for it. These usually come quite pretty, with nice yellow-gold luster and good strikes.

1912 \$20, MS63. CDN Bid MS63 \$850, MS64 \$2020, population 518, 174 better. In my experience, this is a **surprisingly tough** date to find in any grade of mint state, and it always sells quickly. It also has demand pressure of a different sort in that it is the only 1912 product—Denver and San Francisco minted no Saints that year; therefore, date only sets need it too. Strike is generally good but not full, and luster is typically an attractive, satiny green-gold to yellow-gold.

1913 \$20, MS64. CDN Bid MS64 \$2900, MS65 \$23,000, population 120, 8 better. Not a lot of Mint State examples of this date survived, but they are available—until you want a near-gem or better, in which case you're likely to be looking for quite a while. With MS65's practically nonexistent, a nice MS64 seems like a solid value. These, like 1912's, typically have good but not full strikes, although their luster is a little more yellow-gold.

1913-D \$20, MS63. CDN Bid MS63 \$650, MS64 \$1050, population 877, 811 better. Here's another date that's a lot tougher than a generic, but priced only incrementally more. These are usually very well struck and have lovely, brilliant yellow-gold luster.

1914 \$20, MS64. CDN Bid MS64 \$1850, MS65 \$11,300, population 215, 19 better. Just a touch less difficult to locate than the 1913, this date seems to represent good value, and again has very few available examples in the next higher grade. Lower grades are usually plagued by contact marks that keep them in the MS60 to MS62 level. The date is typically well struck and has attractive, orange-gold luster over (sometimes) slightly granular surfaces.

1915-S \$20, MS64. CDN Bid MS64 \$755, MS65 \$1540, population 3,493, 819 better. At a small premium at best over the

most common dates, this is a "deal." These generally have attractive, orange-gold luster over unusual, granular surfaces—they're quite pretty, although different in appearance from the norm. Your clients who are not familiar with what a typical 1915-S looks like may not like them at first!

1916-S \$20, MS64. CDN Bid MS64 \$800, MS65 \$1575, population 1,517, 762 better. A hoard or two of this date has made it a lot more affordable than it otherwise may have been. Nonetheless, it's still a good bit tougher than the most common dates, but doesn't sell for much of a premium. These tend to have bright, yellow-gold luster and somewhat granular surfaces, although less so than those of the 1915-S.

1920 \$20, MS63. CDN Bid MS63 \$620, MS64 \$2650, population 827, 190 better. Thought of by many as "another one of those 20's dates," it doesn't receive the respect it deserves, and is lumped in with the 1924-1928 Philadelphia issues. Basically a common date in MS60 (scarcer, but still available), it becomes increasingly scarce in MS63 and higher grades. For some reason, many of the surviving Mint State examples of this date are heavily bagmarked. These tend to be well-struck coins with ordinary, pleasing golden luster. In my experience, the services tend to be a Rule "loose" in grading MS63's probably because this date is so heavily bagmarked most of the time. With MS63's worth only thirty-five dollars more than a common date, MS64's at \$2650, and MS65's virtually nonexistent, a high-end MS63 appears to be a "deal."

1923 \$20, MS64. CDN Bid MS64 \$760, MS65 \$5500, population 1,273, 53 better. Like the 1920, this date is relatively available in lower mint state grades but is difficult to locate without a lot of bagmarks. It is typically well struck and has satiny, golden luster—pretty, but not as attractive as many other dates. With MS65's at \$5500, a nice MS64 looks like a solid value.

1926-S \$20, MS64. CDN Bid MS64 \$3280, MS65 \$31,000, population 173, 13 better. It boasts an original mintage of over 2 million but many were **melted**. A relatively small number of pieces survived, many in European banks. Unless an undiscovered hoard surfaces, this will continue to be one of the very scarce to rare end-of-the-series dates. With the current price between three and four "grand" in MS64, the coin sounds cheap. These are almost always well struck with smooth, attractive yellow-gold luster. I also like the MS63's at \$2100.

Sight-seen coins that are found in the middle to high end of their grade range with an appearance appreciated by you and your client are a must. They look nicer, and tend to be easier to sell for more when the time comes to sell. This type of coin can be difficult to almost impossible to locate at "Bid," so he prepared in many cases to pay a reasonable premium. Your client will most likely thank you for the extra quality!

IF YOU HAVE COINS TO SELL

**YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF
CASH IN CALIFORNIA AND MOST OF IT IS AT
SPECTRUM NUMISMATICS!**

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's a \$2,000,000 1804 Dollar, or a \$30 common date Morgan Dollar, Spectrum desperately needs to buy all of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE *KING OF CASH*

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1997, Spectrum paid \$3,065,845 in finder's fees and commissions!

DO IT FOR THE MONEY!!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!

Call collect and tell them you want to talk to the *King of Cash*.

December 11, 1998

Single copy price: \$4.00

BUFFALOES – ONE OF THE MOST POPULAR AND CHALLENGING SERIES

by David Lawrence & John Feigenbaum

Since its introduction in 1913, the Buffalo Nickel design has been enthusiastically received. With its Americana theme – a Native American on the obverse and North American bison on the reverse – these coins serve as a reminder of the "Good Old Days" of the Western Frontier (glamorized by Hollywood and many authors). Today, we also see Uncirculated Buffaloes as beautiful coins, particularly when they exhibit attractive, original toning.

Collecting Buffaloes can be a great challenge primarily because the series is notorious for poor strikes and planchet flaws. Knowledge of the series is a definite must for the serious collector. David Lange's book, *The Complete Guide to Buffalo Nickels*, should be required reading for collectors. However, there is no substitute for experience, especially when one is seeking high grade Mint State coins (MS63 and above). Below, I discuss some of the nuances we have discovered since dealing with these coins for over 19 years.

Should Buffaloes Have A Full Horn Designation?

When studying Buffalo Nickels it becomes obvious that grade alone should not determine their value. We know that Mercury Dimes have a Full Band designation, and Standing Liberty Quarters have their Full Head. Similarly, Buffaloes should have a "Full Horn" (FH) designation too. In fact, one could make a good argument for the additional designation of "Full Strike" (FS) in this series. To qualify for the FH designation, the buffalo should not only have a fully three-dimensional horn, but also display all the curly hair of the bison's head above the horn and between the horn and the rim. To qualify for the Full Strike designation, the buffalo would have to satisfy the requirements of the Full Horn and also be fully struck in its central details. Such a coin would have shaggy hair on the buffalo's shoulder and, on the obverse, a fully struck braid on the Indian's hair. The strike at the date and the word "LIBERTY" are also considerations. For some issues, the Full Head and Full Strike examples are quite rare and should command large premiums.

The following is a date-by-date analysis of the Buffalo Nickel series 1913-1938:

1913-P (I) & 1913-D (I) – These first year of issue coins are generally well struck and available even as high as MS66. The P & D are perhaps the best struck coins of the entire Buffalo series. A nice example belongs in everyone's Type Set.

1913-S (I) – The opposite of the "P" & "D" above, this S-Mint is usually not well struck. Collectors are often bothered by the fact that the word "Liberty" on the obverse typically runs into the rim.

1913 (II) – **Underrated**; because the Type I is so common. In reality, the rarity of this date in Mint State is similar to the more

expensive 1913-S (I). This Philadelphia issue comes with a decent strike, but nothing like its Type I cousin.

1913-D (II) – One of our favorite dates. **Underrated** in MS65 and especially MS66. The PCGS and NGC combined population in MS65 is just a little higher than the better known 1913-S (II). It's a **great** value with current Bid at \$685 versus \$2200 for the San Francisco Mint.

1913-S (II) – A popular key to the set. Comes better struck than its Type I counterpart. Very scarce in MS66 and above.

1914-P – Generally available and should be purchased in MS65-66. Comes with a decent strike.

1914-D – Very popular date among collectors because of its scarcity in circulated grades. Available in Mint State grades through MS64. If you go for an MS65, **insist** on a high end coin. Great strikes are the norm.

1914-S – More common in all grades through MS64 than the D-Mint of this year, but the reverse is true for gems. Decently struck coins should be easy to find.

1915-P – Like the 1914-P, it is generally available and should be purchased in MS65-66. Comes with a decent strike.

1915-D – Equal in scarcity to the 1914-D, it also comes well struck. MS64's are a good value at current levels.

1915-S – A favorite among collectors because of its low Mintage (1.505 million compared to 7.567 million for the 1915-D). Equal in scarcity with the 1915-D in Mint State. Again, MS64's represent a good value.

1916-P – At around \$200 in MS65, you can't go wrong.

1916-D & S – These two issues are nearly identical in terms of rarity and quality through MS65. The Denver Mint is **underrated** in the market in MS65. It has a Bid of only \$1250 (compared to \$1800 for the S-Mint). The Denver Mint becomes far tougher in MS66.

1917-P – A bargain in the \$400 range in MS65. Like other early P-Mints, it comes well struck.

1917-D & S – Very similar scarcity for both coins and prices. They are comparable in all grades with the exception of MS64 where, inexplicably, the S-Mint is priced double. Both issues can be found with good strikes.

1918-P – Second only to the 1921 in popularity among the P-Mints. Prices seem a little strong relative to population, but this date always sells quickly. Finding a well struck example can be a bit of a challenge.

1918-D – The first date in the series that is usually found poorly struck and is the reason why gems are quite scarce. Sharply struck MS64's and above are well worth the money.

1918-S – One of the **poorest** struck dates (in the central details) of the entire series. Only 18 have been certified and graded in MS65 and one in MS66 (PCGS/NGC combined). MS64 coins with typical strikes – the vast majority – sell slowly at current levels. Well struck pieces should be gobbled up in any grade.

1919-P – Good value at current levels in MS65. Like other early P-Mints, it comes well struck.

1919-D & S – Two of our favorite dates. Insist on good strikes if you can find them. The 1919-S is a little strong at current levels in MS65, but the D-Mint is good value.

1920-P – Good value at current levels in MS65. Like other early P-Mints, it comes well struck.

1920-D & S – Similar to, but scarcer than the 1919 D & S. Well struck coins are sometimes available but don't last long in dealer inventories. We like the value of MS64 coins.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market. Such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 0082-48) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

1921-P - The most popular P-Mint in the set, although current populations are substantial. This is likely a carry-over of the popularity of 1921 coinage in general.

1921-S - One of everyone's favorite dates because it is scarce even in low circulated grades. This date often comes with a decent strike. However planchet flaws are common, as are streaky discoloration patterns. Because it's always in demand, collectors are often forced to accept imperfect coins of this date for their collection.

1923 through 1930-P - Generally available in MS65 and above. Buy what your budget allows and enjoy. Nice Philadelphia Mint coins abound.

1923-S - This date is generally known for its poor strikes. However, coins with decent strikes on the reverse sometimes appear. While 1923-S Full Horn pieces are snapped up quickly, they rarely bring the premiums they deserve.

1924-D - One of the scarcest dates of the series in FH condition. This date is way undervalued when found well struck. Even MS65 examples will rarely satisfy my FS designation.

1924-S - Another of everyone's favorite dates, this issue actually comes with a better strike than most people believe. However, demand always greatly exceeds supply. Consequently, it will never stay in a dealer's inventory for more than a few days. Currently quite reasonably priced in MS64 & MS65 grades.

1925-D - Here we have the most poorly struck issue on the date. Even high grade coins will often not show a full, strong date. Mint State examples would be extremely rare if it were not for a few original rolls that were sold into the market by the auction sale of the Connecticut Library collection a few years ago.

1925-S - One of the favorite issues of knowledgeable collectors, this date rarely appears well struck enough for either the FH or FS designation.

1926-D - Perhaps 90% of this date are so poorly struck that the buffalo's horn is scarcely discernable. Yet, FS coins sometimes appear. When they do, they often bring double premium among knowledgeable dealers and collectors.

1926-S - The lowest Mintage of the entire series (970,000). Like the 24-S, this date is always in demand in grades up to MS64. MS65 examples are highly prized and carry a very low population, but are among the greatest of 20th century rarities. This issue, as a whole, is rare in Mint State and well struck coins are hard to locate.

1927-D & S - As with prior 1920's Branch-Mint issues, these are tough in all Mint State grades. Both have low Mintages. The D-Mint has about twice the population as the S-Mint. Buy the D through MS65. We also recommend the S at current MS63-64 levels.

1928-D & S - Both have equal Mintages but the S has proven to be much scarcer in Mint State. Look for well struck coins, especially when buying a gem.

1929-D & S - Nicely struck coins can be somewhat of a challenge to locate. Pleasing coins are well worth current levels.

1930-S - Poorly struck as a rule. Pleasing gems are hard to find and well worth the money.

1931-S - Second lowest Mintage of the entire series, but were saved in roll quantity. Still a great seller and a bargain because of its availability.

1934-P & D - Both poorly struck, especially the D-Mint. Nice gems sell well at current levels.

1935-P through 1938-D - Inexpensive and should be purchased in the highest grade you can afford.

VARIETIES:

1914/3 - A recently discovered variety that hasn't yet impressed us. These may or may not be rare. Only time will tell. Unfortunately, even the strongest overdates are far weaker than the 1918/7-D, which is one reason these haven't achieved the popularity of the other varieties. Our best advice here: if you can't see the overdate, don't buy it.

1916/1916 - The rarest of all Buffalo Nickels in any grade. Always brings a large premium over Bid levels, but usually priced out of most sets.

1918/7-D - Rare above VF, but serious collectors try to include it. A prize in any Mint State grade and nearly as rare as the 1916 double die above MS63. Also, like the 1916/1916, demand far outstrips supply in most grades. We recently sold an MS62 example for well over \$20,000 wholesale!

1937-D "3-Leg" - Readily available in VF-AU58. Uncirculated coins tend to be another degree more difficult to find. Beware of low-end Mint State pieces with obvious rub (or wear) on the buffalo's hind quarters. If looking for an Uncirculated piece, hold out for a coin with some luster. We've seen some very dull examples even in grades as high as MS64. Often certified AU55 and AU58 pieces are put in low MS sets. A true MS65 coin must have terrific luster, which is quite unusual, hence the high price of \$12,000+.

David "Lawrence" Feigenbaum is the founder of DAVID LAWRENCE RARE COINS of Virginia Beach, Virginia. Although he was diagnosed with ALS (Lou Gehrig's Disease) in 1996, he still comes in the office daily and keeps up with the market. His son, John, runs the daily activities of the business. He can be reached at: PO Box 61661; Va. Beach, VA 23466.

All modern commemoratives and mint products must contain complete original U.S. mint packaging.

GREYSHEET GRADING STANDARDS

All Modern Eagles and Sets must contain complete original U.S. Mint packaging.

| | \$1 Silver | | \$5 Gold | | \$10 Gold | | \$25 Gold | | \$50 Gold | | Gold Year Set | | | | | |
|---------------------------|------------|---------|----------|---------|-----------|---------|-----------|----------|-----------|----------|---------------|------------|---|---|---|----------------|
| | BID | ASK | BID | ASK | BID | ASK | BID | ASK | BID | ASK | BID | ASK | | | | |
| 1986 | 7.60 | 7.95 | 39.00 | 42.00 | 92.00 | 100.00 | 175.00 | 185.00 | 305.00 | 310.00 | ~ ~ ~ | ~ ~ ~ | descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades. | | | |
| 1986 Proof | 18.25 | 19.50 | N/M | N/M | N/M | N/M | N/M | N/M | 503.00 | + 525.00 | ~ ~ ~ | ~ ~ ~ | | MS60-Unc.: May not have full mini lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck. | | |
| 1987 | 6.25 | 7.80 | 40.00 | 44.00 | 92.00 | 100.00 | 190.00 | 205.00 | 304.00 | 309.00 | ~ ~ ~ | ~ ~ ~ | | MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins. | | |
| 1987 Proof | 18.35 | 19.50 | N/M | N/M | N/M | N/M | 242.00 | + 258.00 | 503.00 | + 525.00 | 675.00 | 725.00 | | MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible | | |
| 1988 | 6.40 | 7.28 | 42.00 | 46.00 | 100.00 | 110.00 | 280.00 | 288.00 | 304.00 | 309.00 | ~ ~ ~ | ~ ~ ~ | | | MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal. | |
| 1988 Proof | 22.00 | 23.50 | 50.50 | 56.00 | 121.00 | 129.00 | 242.00 | + 258.00 | 503.00 | + 525.00 | 930.00 | + 960.00 | MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date. | | | |
| 1989 | 6.40 | 7.25 | 41.00 | 46.00 | 98.00 | 104.00 | 365.00 | 380.00 | 309.00 | 314.00 | ~ ~ ~ | ~ ~ ~ | Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides. | | | |
| 1989 Proof | 18.35 | 19.25 | 53.00 | 58.00 | 121.00 | 129.00 | 242.00 | + 258.00 | 503.00 | + 525.00 | 930.00 | + 955.00 | | | * Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls. | |

OUR MEMBERS TELL THE STORY

"Congratulations to Numismatists Online for running what I believe to be the best auction site on the Net! I was once a skeptic of Internet buying - but not any more!"

--Doug Andrews
Numismatists Online Member, 1 year
Numismatist, 38 years

That's what just one of our members has to say about Numismatists Online, the premier internet site for coin and currency auctions.

We set high standards for ourselves - associating with leading dealers, assuring a variety of quality items, and featuring the easy-to-use SmartBidder™ and SmartFind™ services - so that all of our members have the satisfaction of a Doug Andrews.
